für kleine Architekten und Bauarbeiter

illustriert von Anna Oeldig

Baue die Mauer zu Ende.

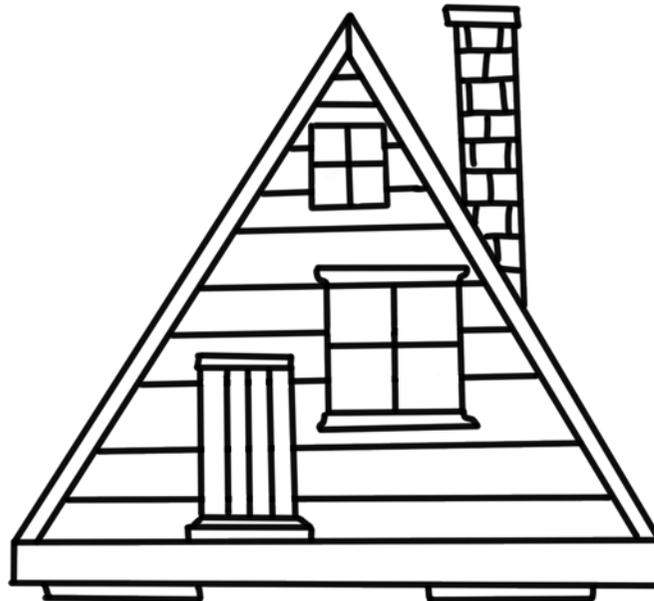

Male dein Traumhaus!

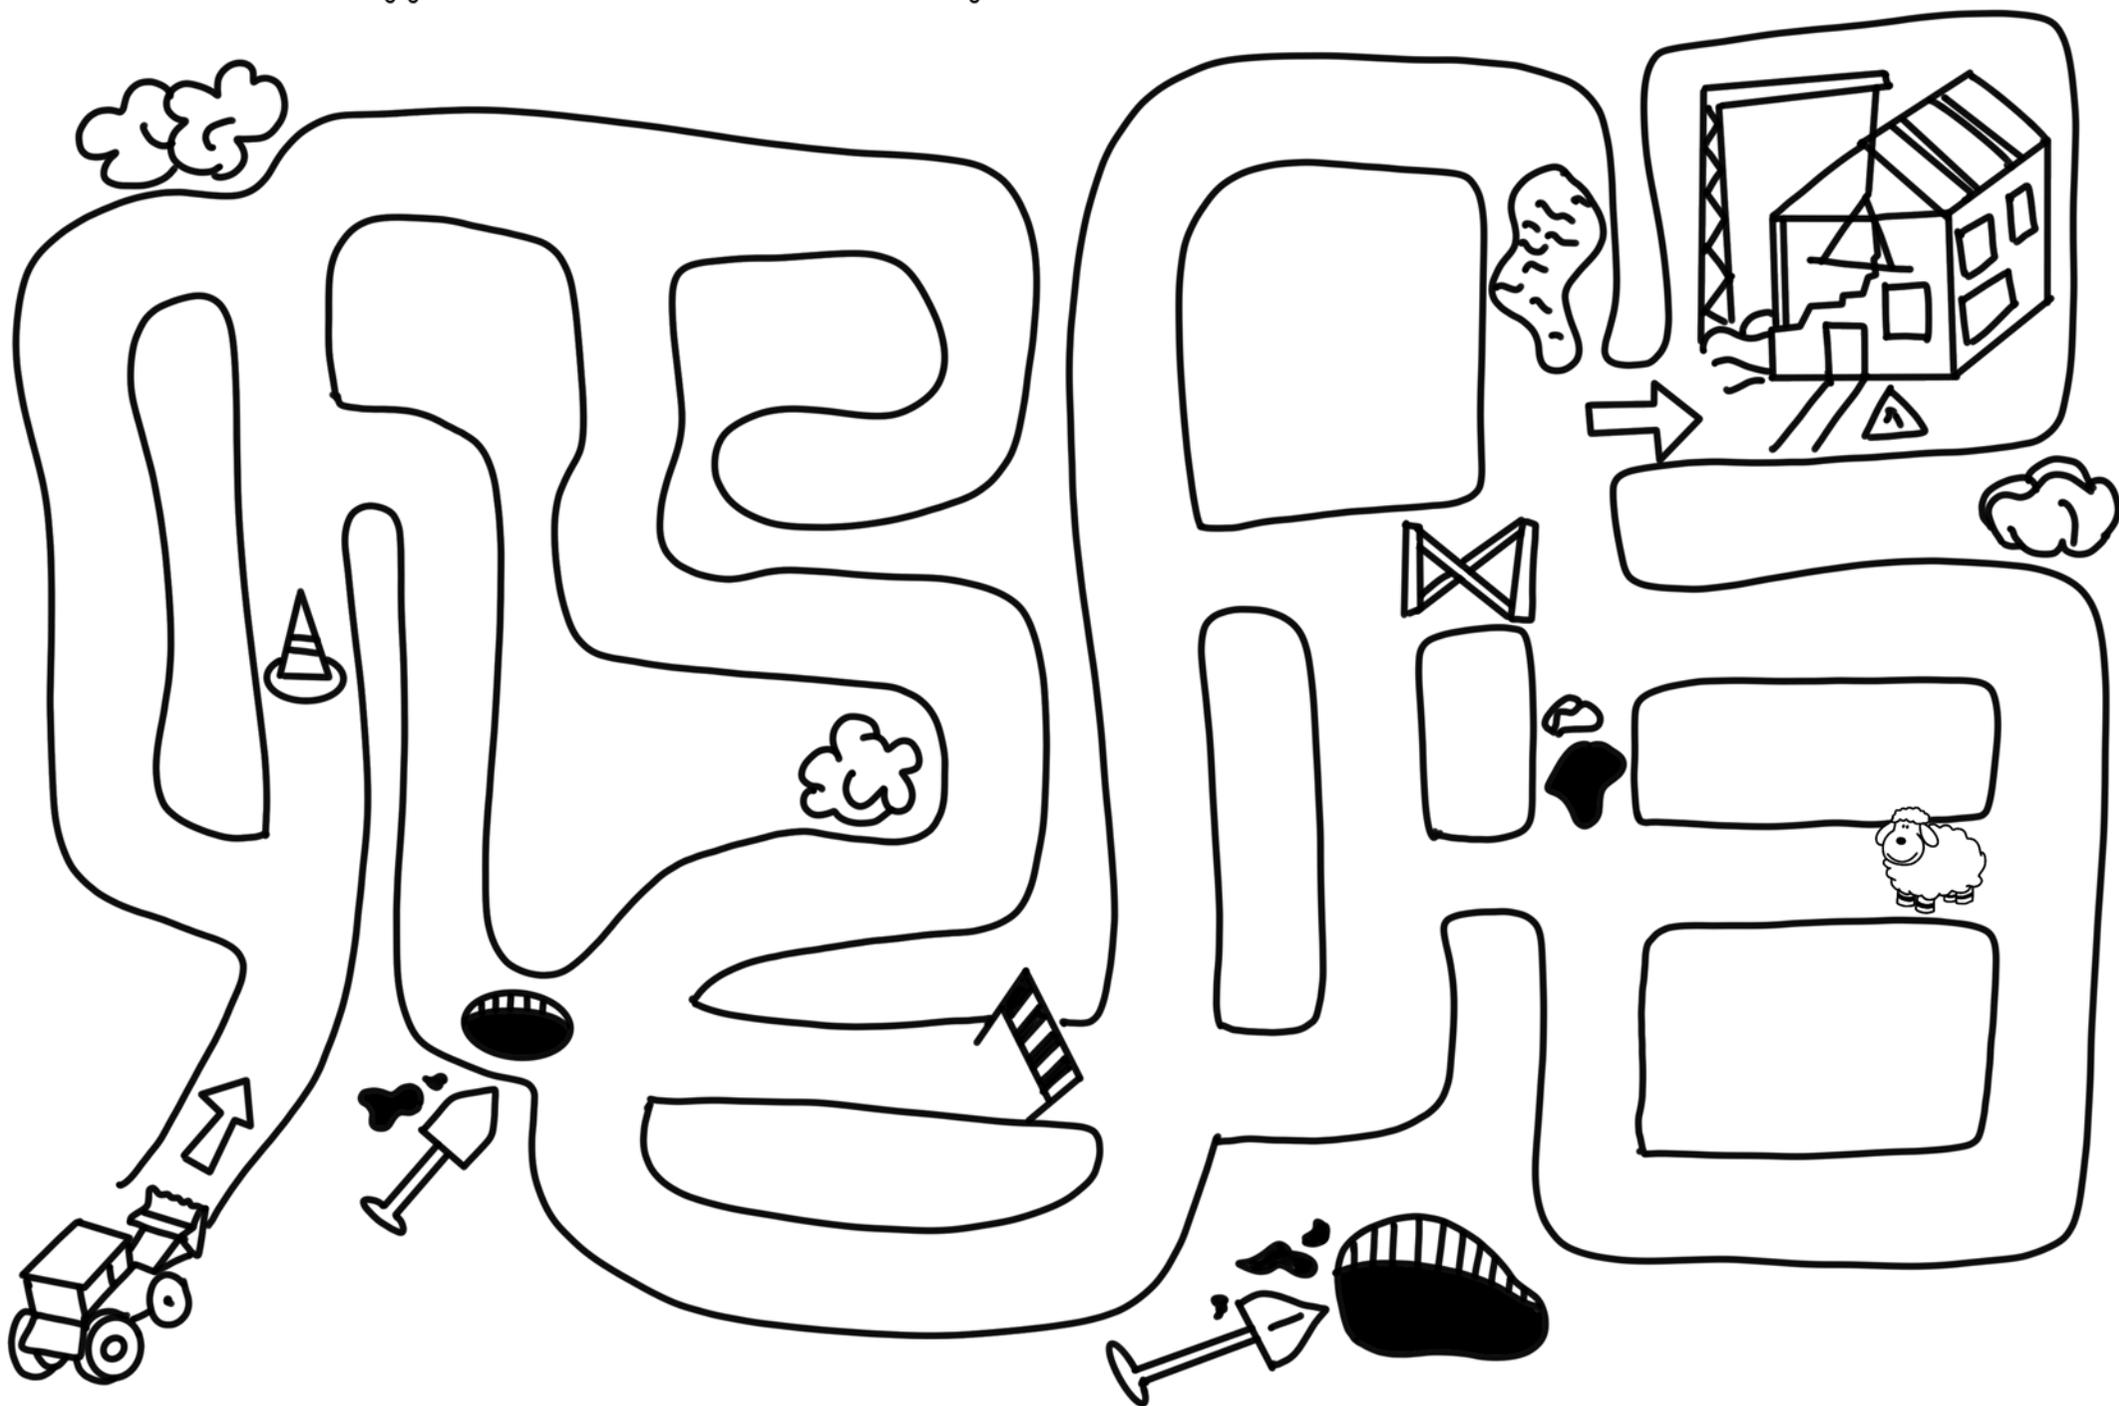

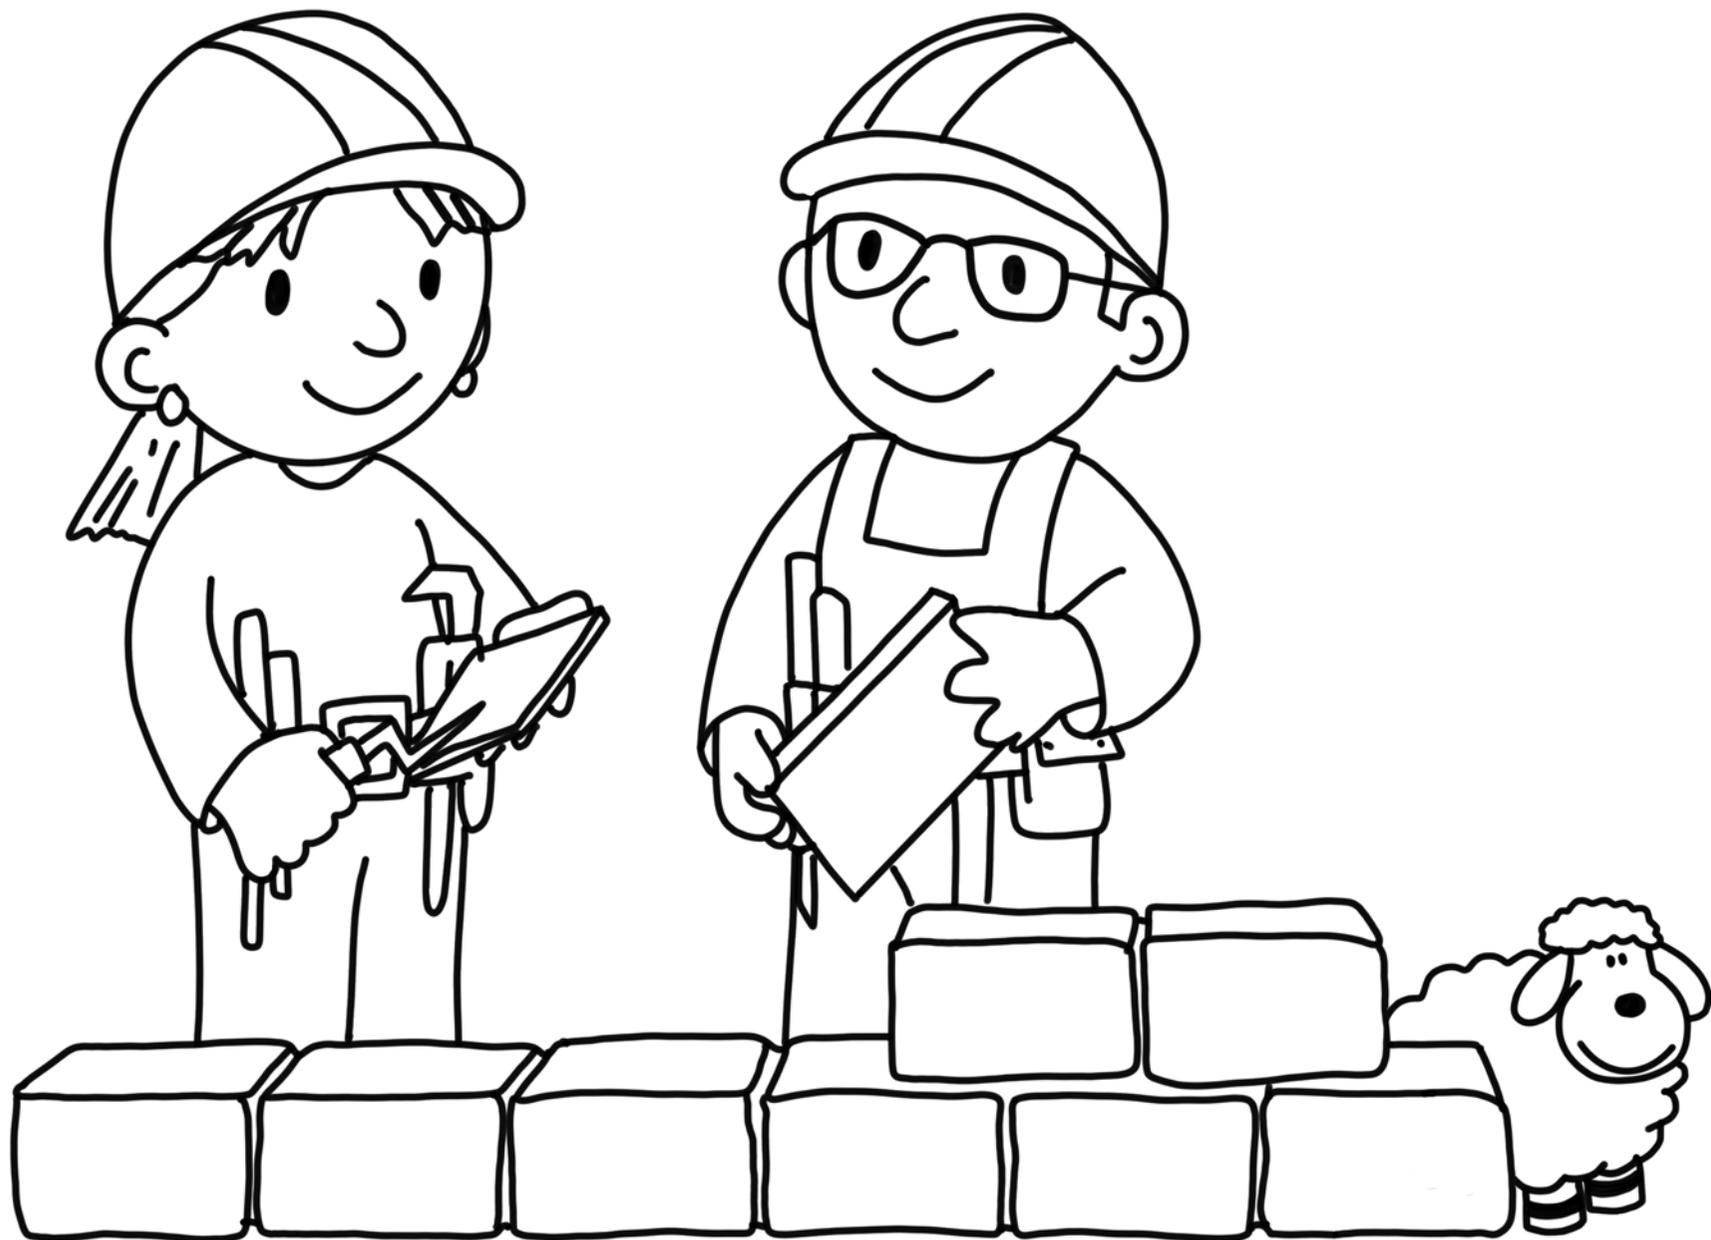

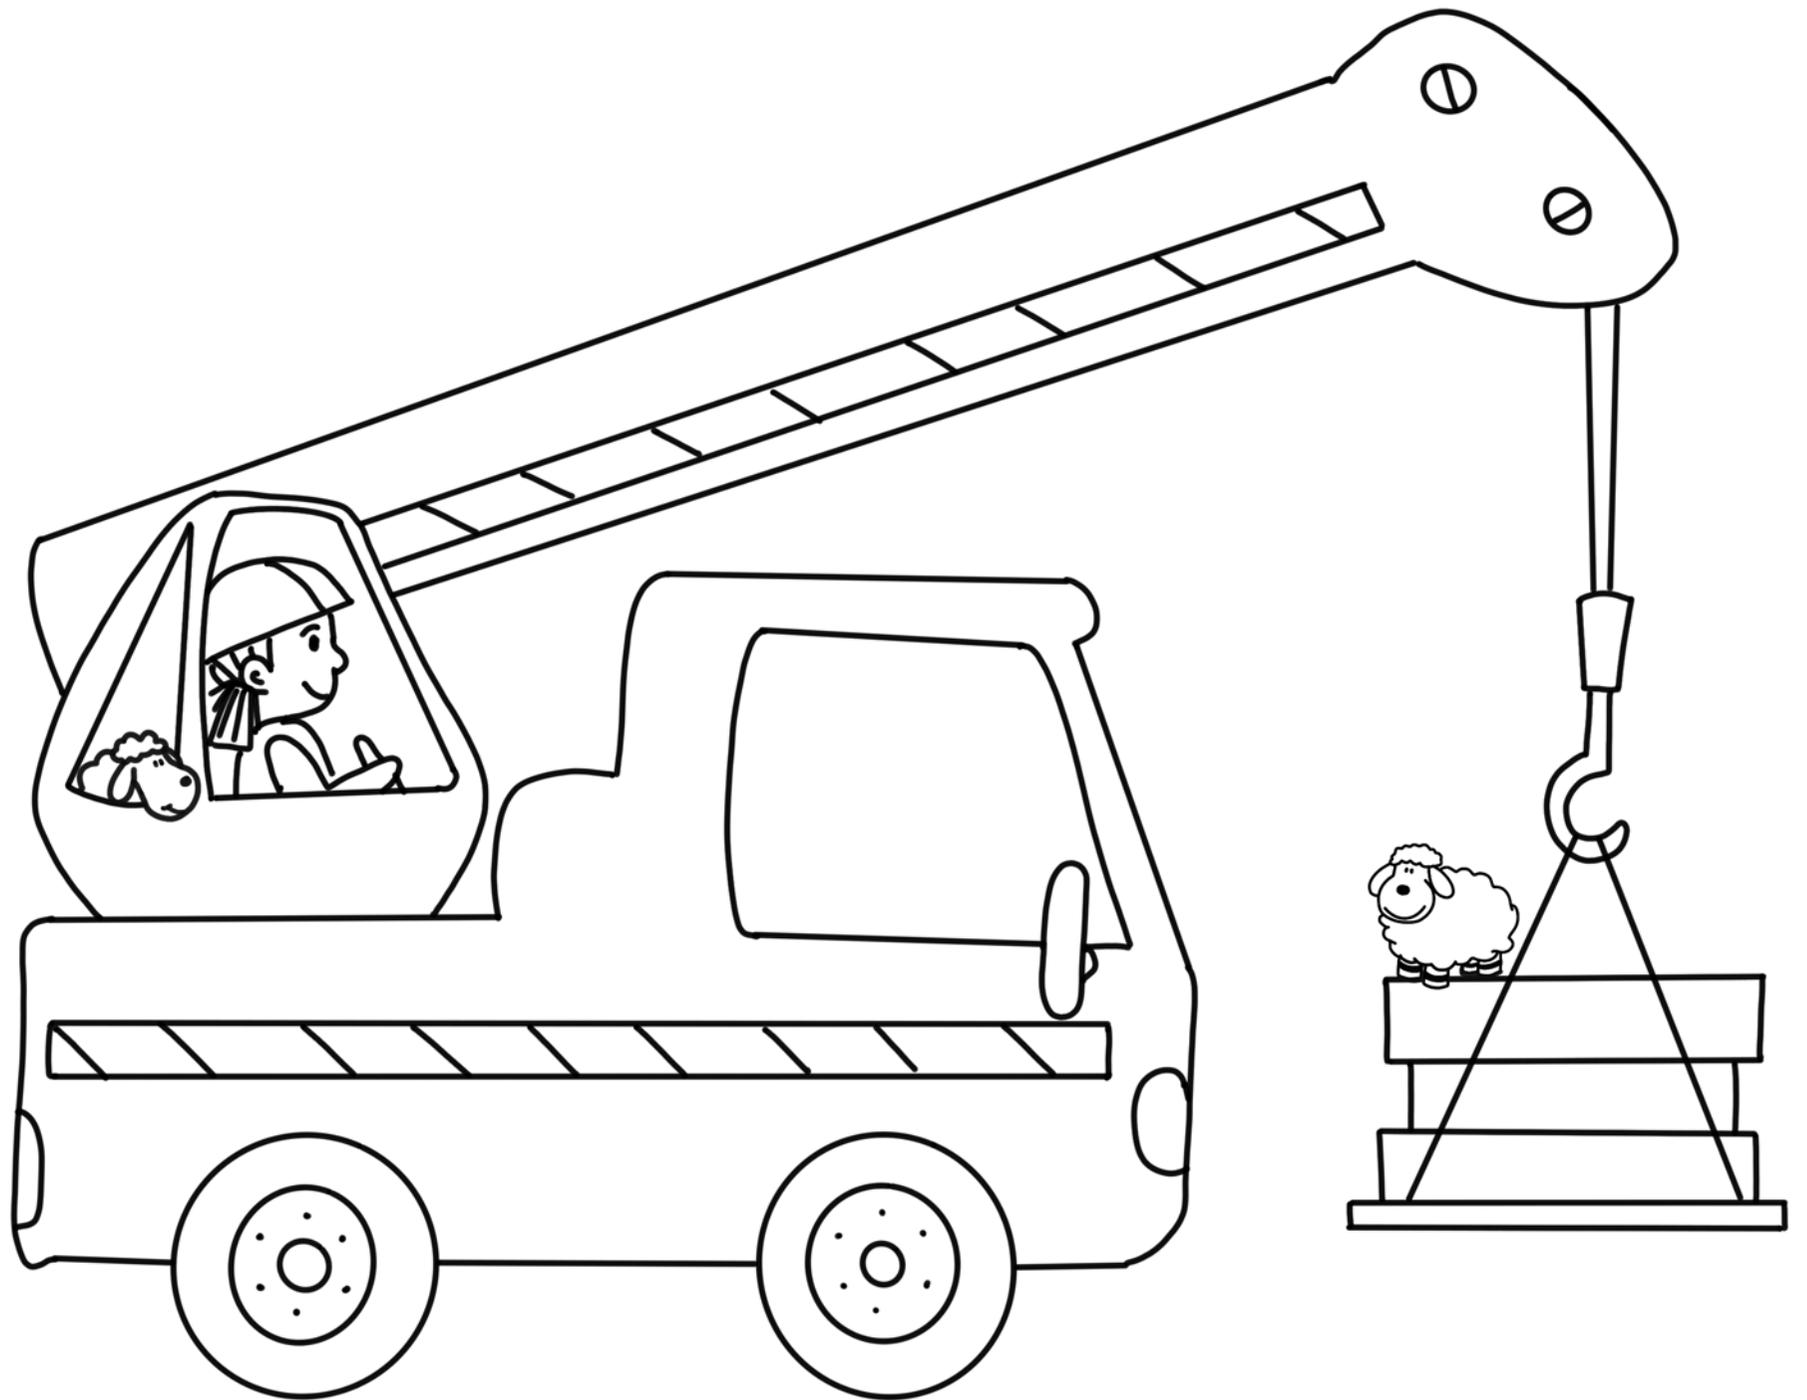

Welches Haus gefällt dir am besten? Kreise es ein.

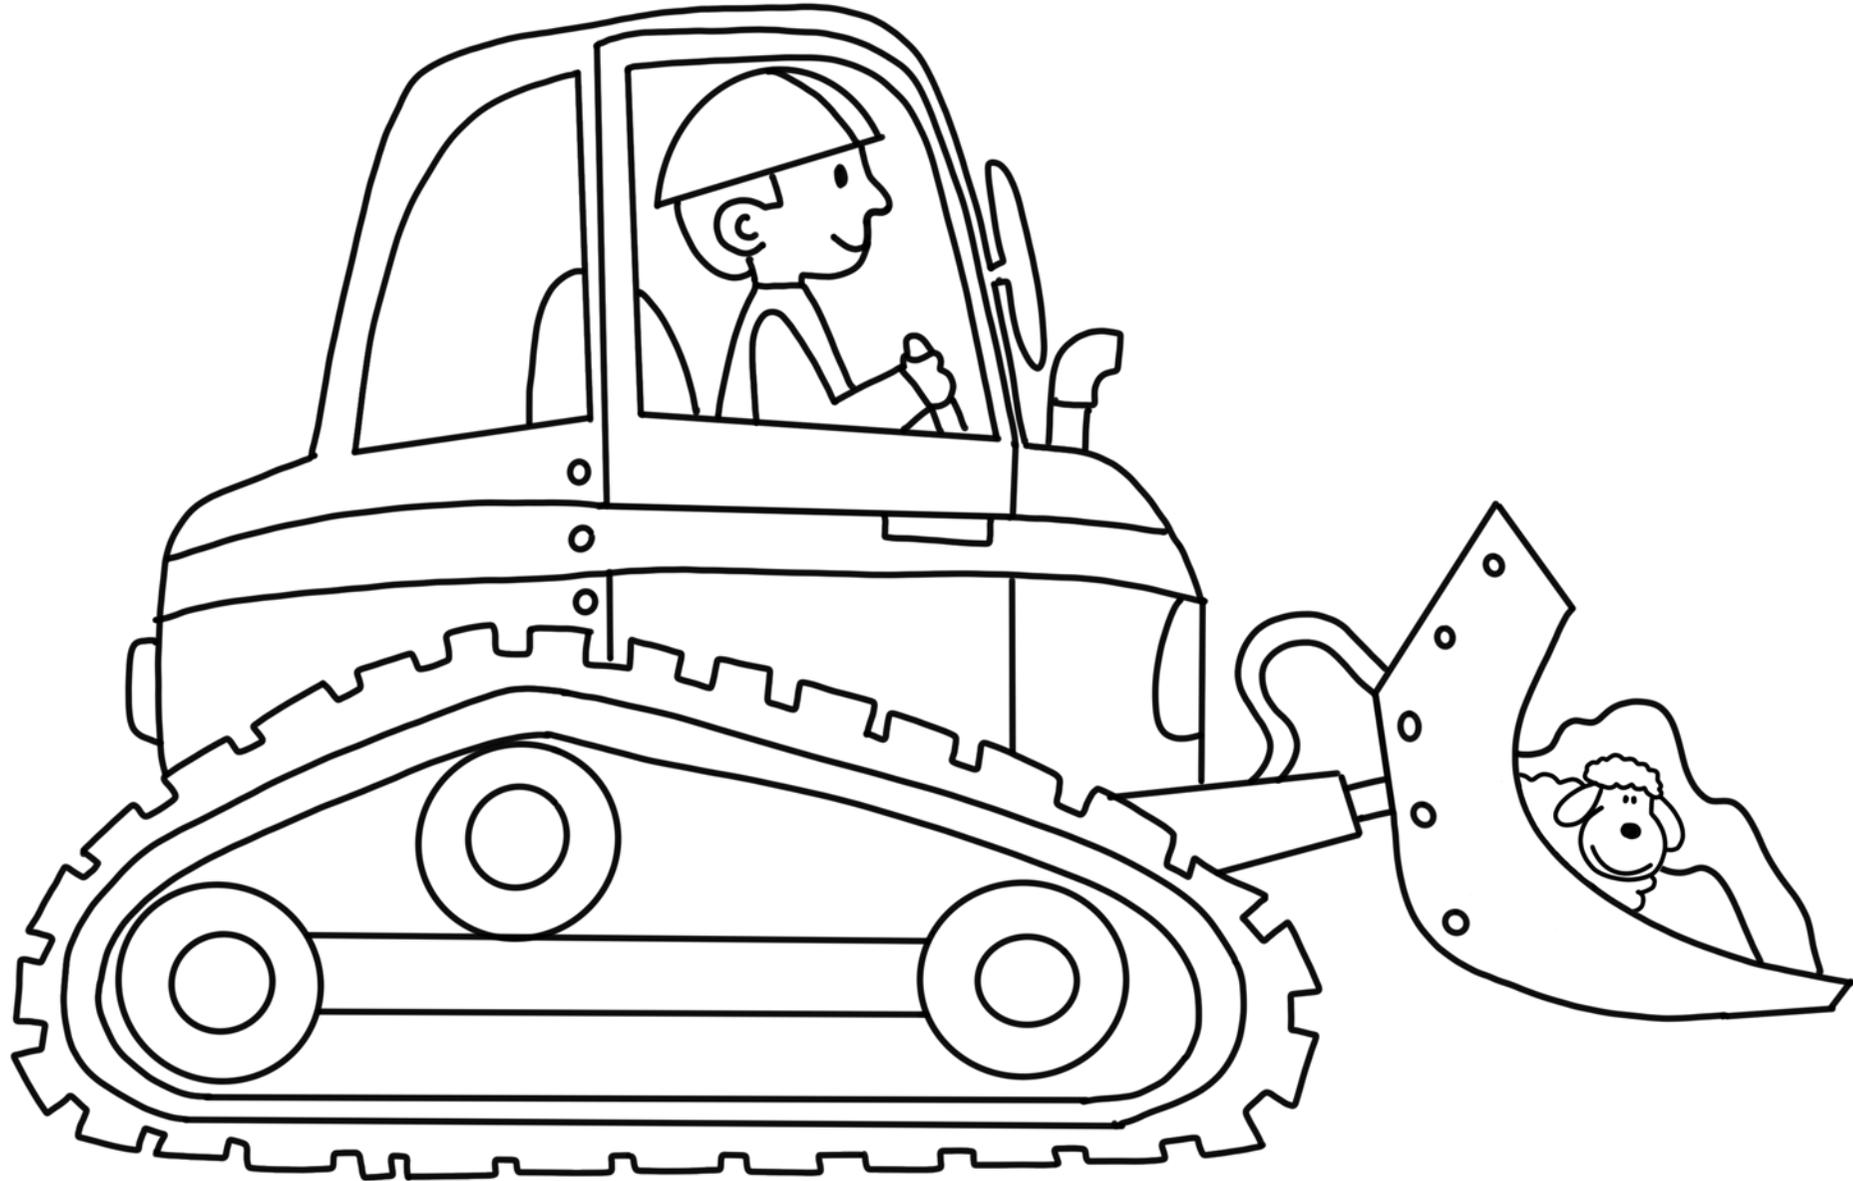

Kannst du dem Baggerfahrer helfen, den Weg zum Haus zu finden?

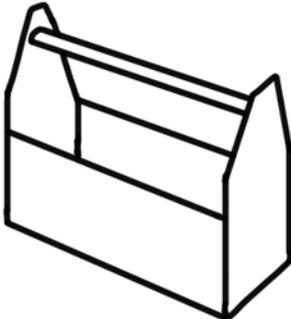

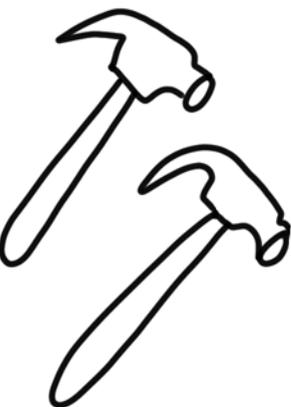

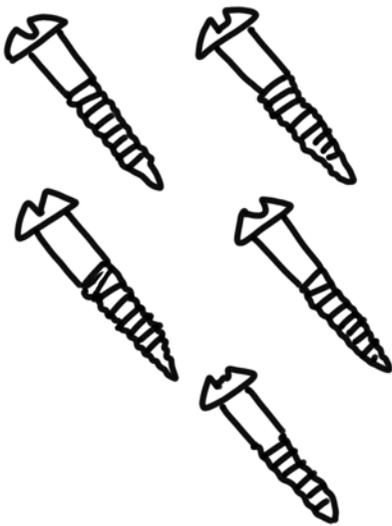

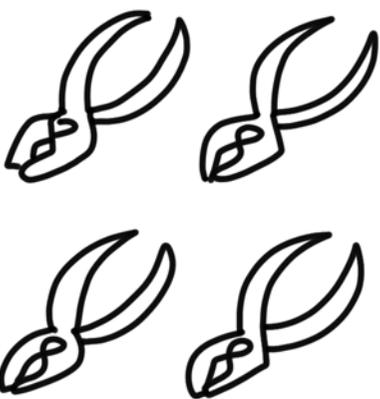

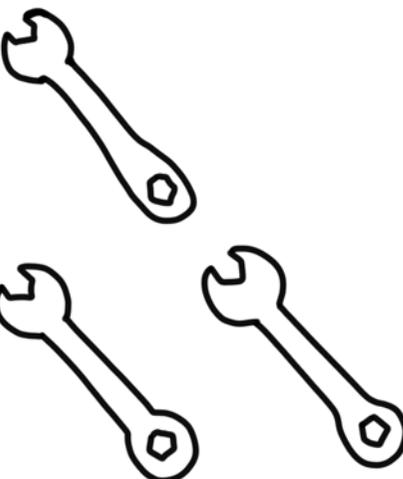

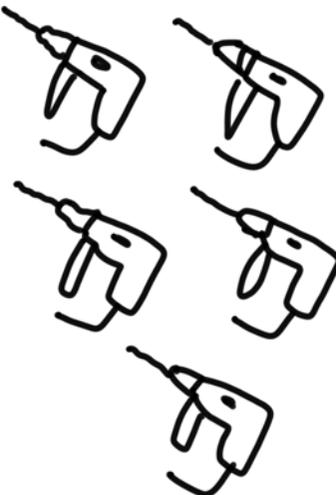

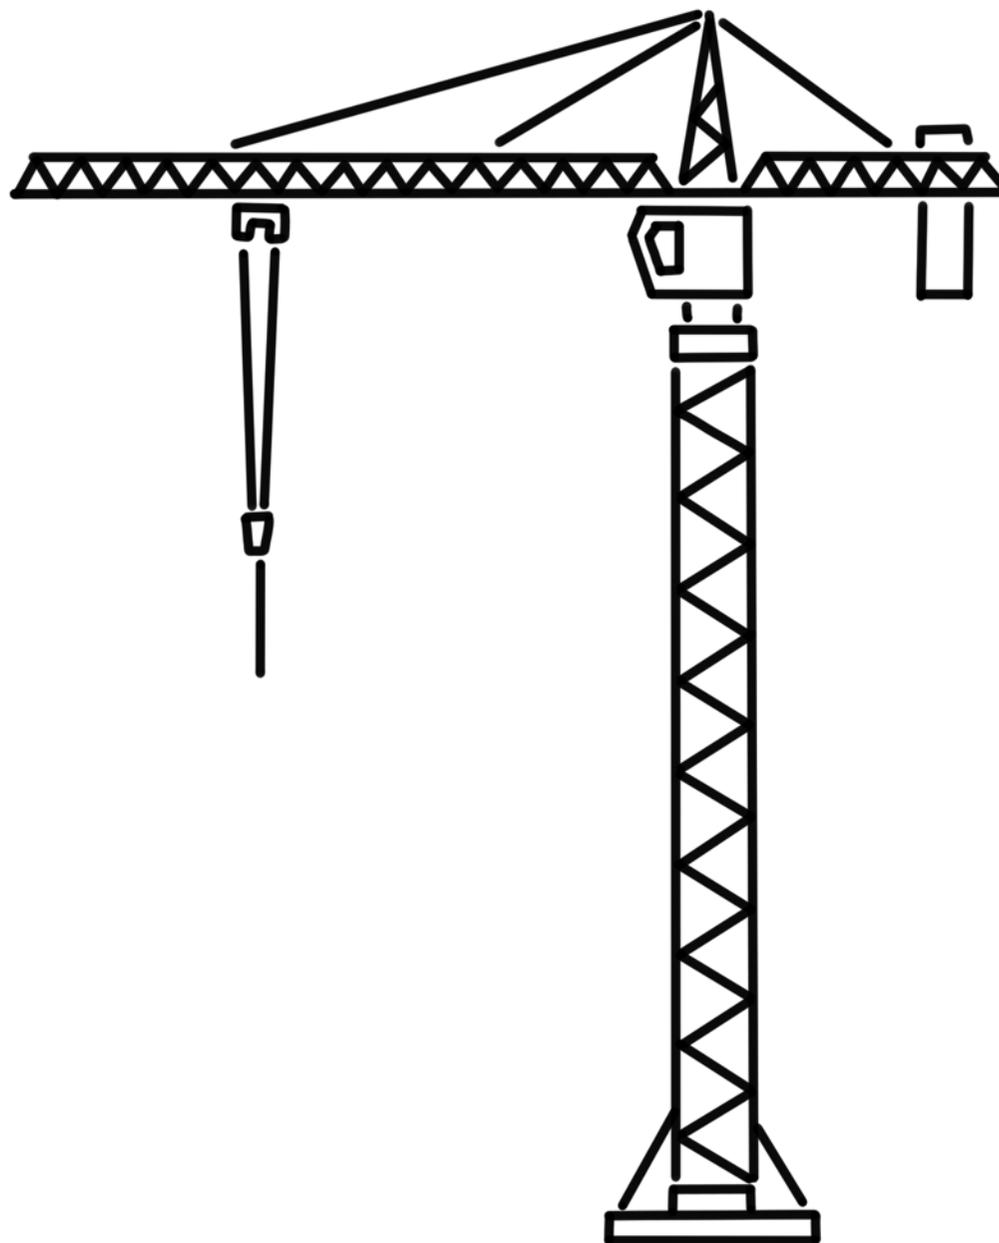

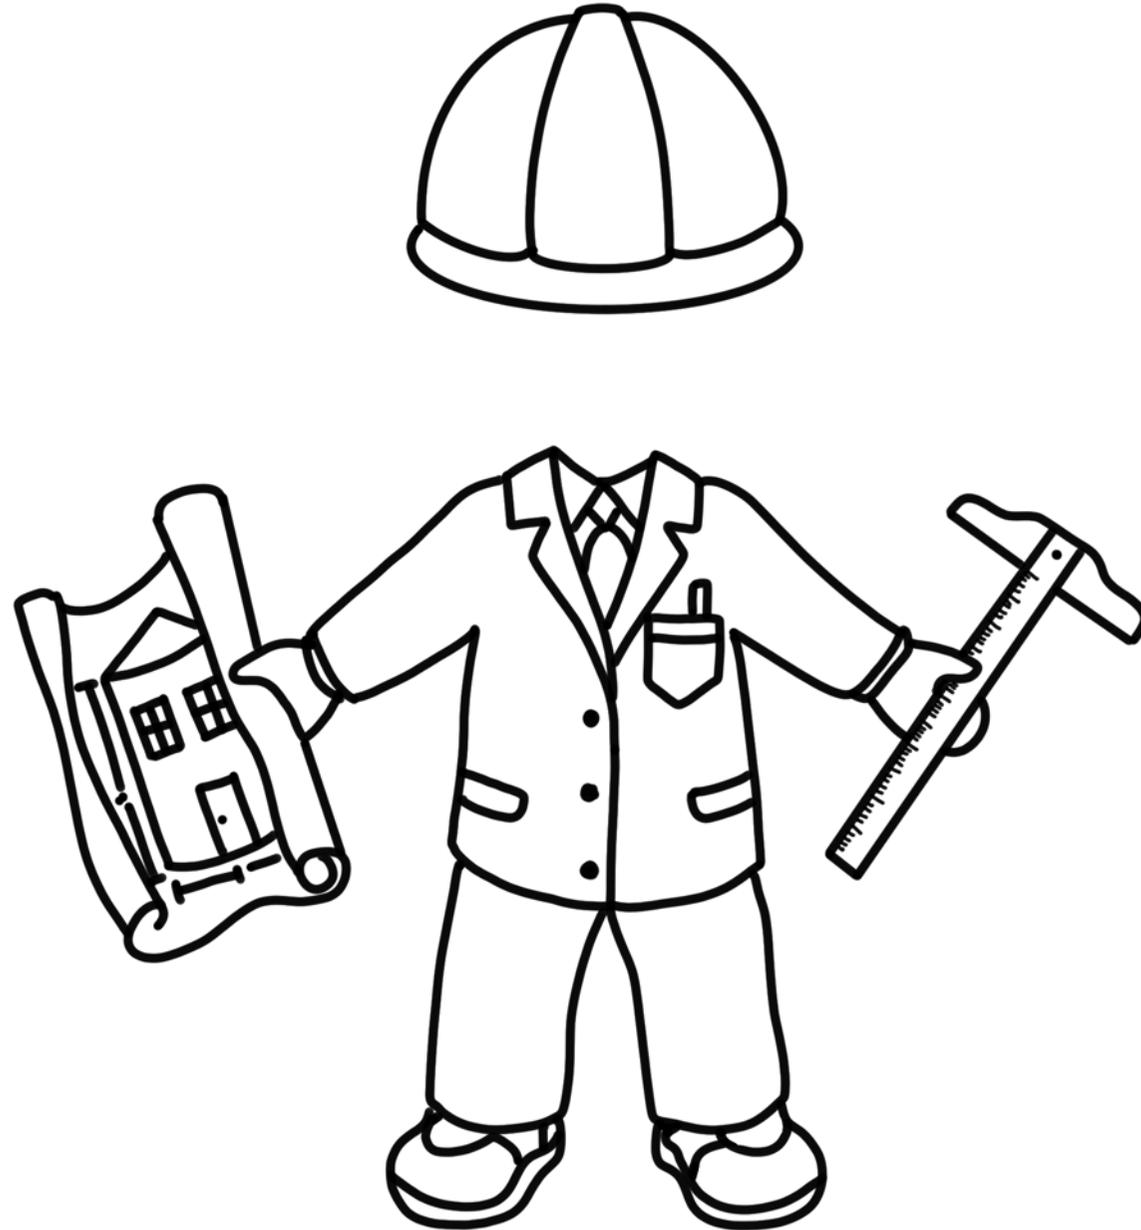

Zähle das Werkzeug und kreuze die richtige Anzahl an.

 <p>① ② ③</p>	 <p>① ② ③</p>	 <p>② ③ ④</p>
 <p>② ③ ④</p>	 <p>② ③ ④</p>	 <p>③ ④ ⑤</p>

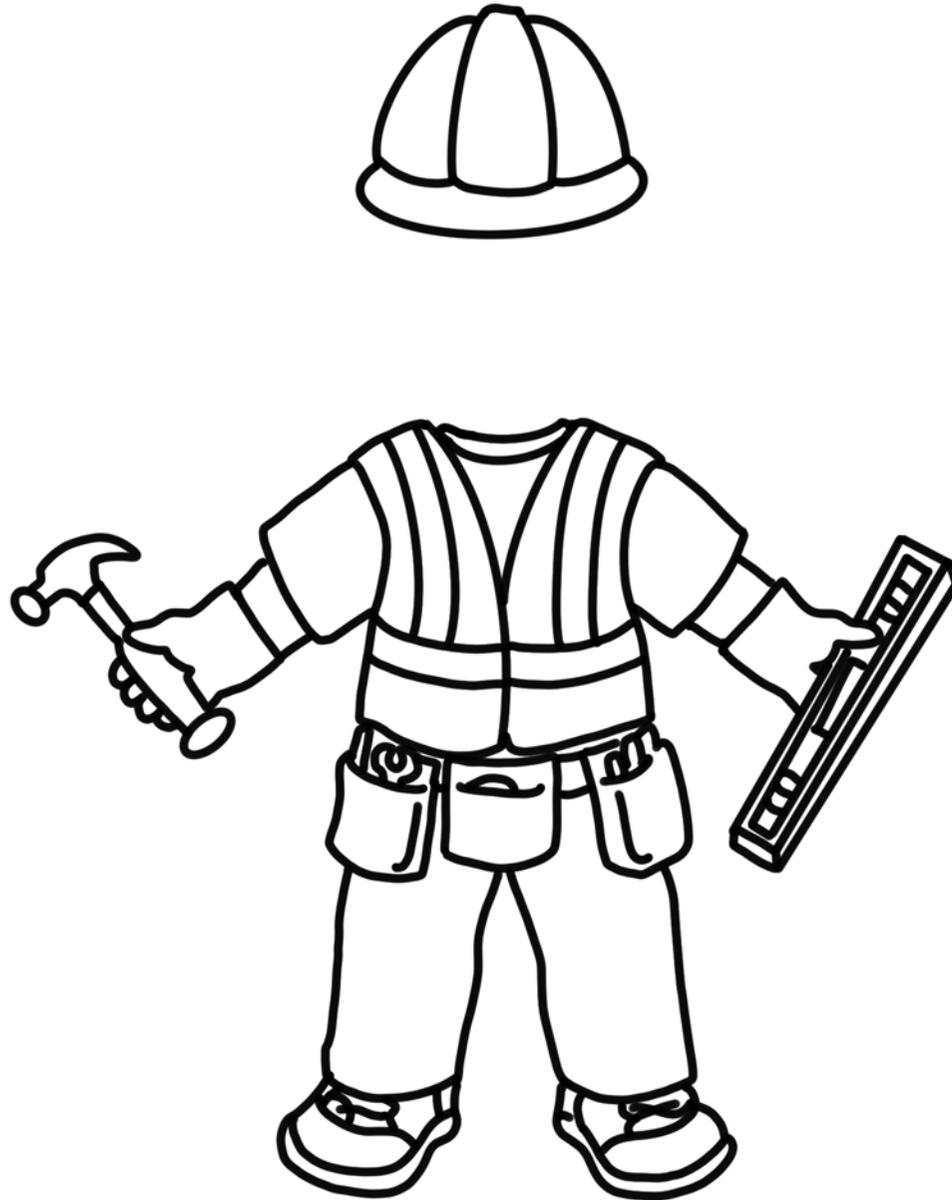

Zeichne selbst, was der Kran tragen soll .

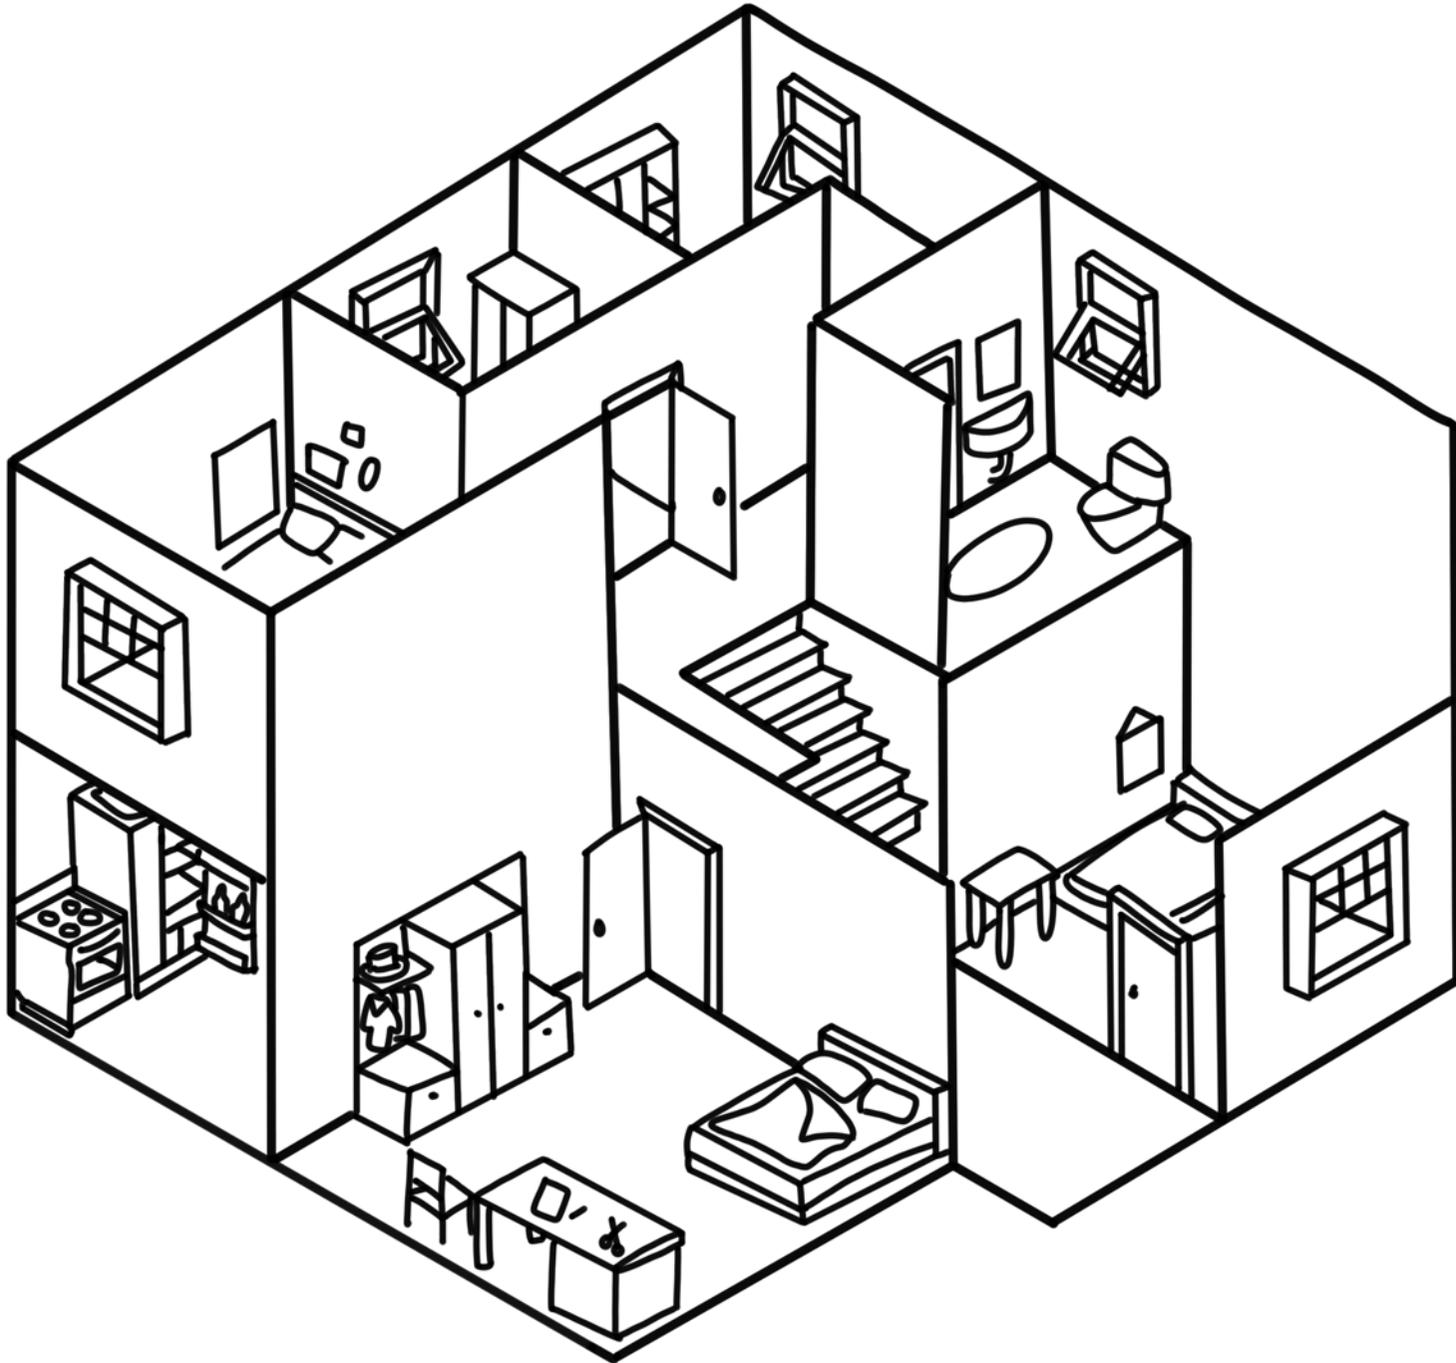

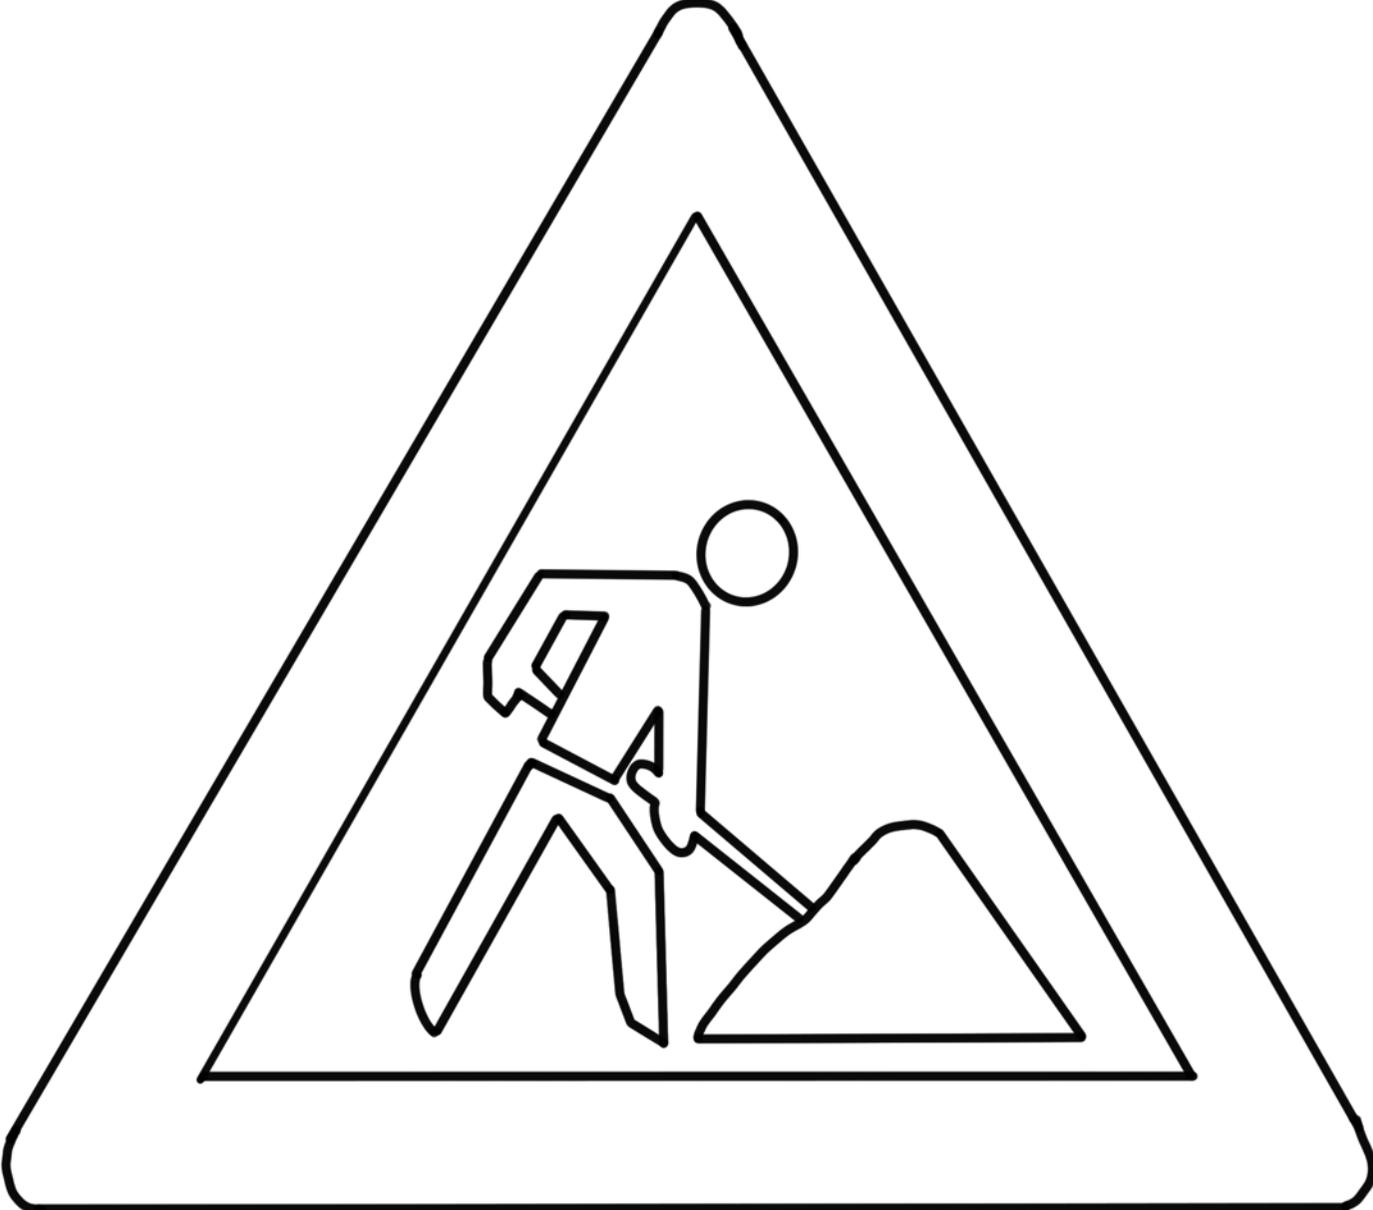

Der Architekt hat noch gar kein Gesicht. Male dich selbst hinein!

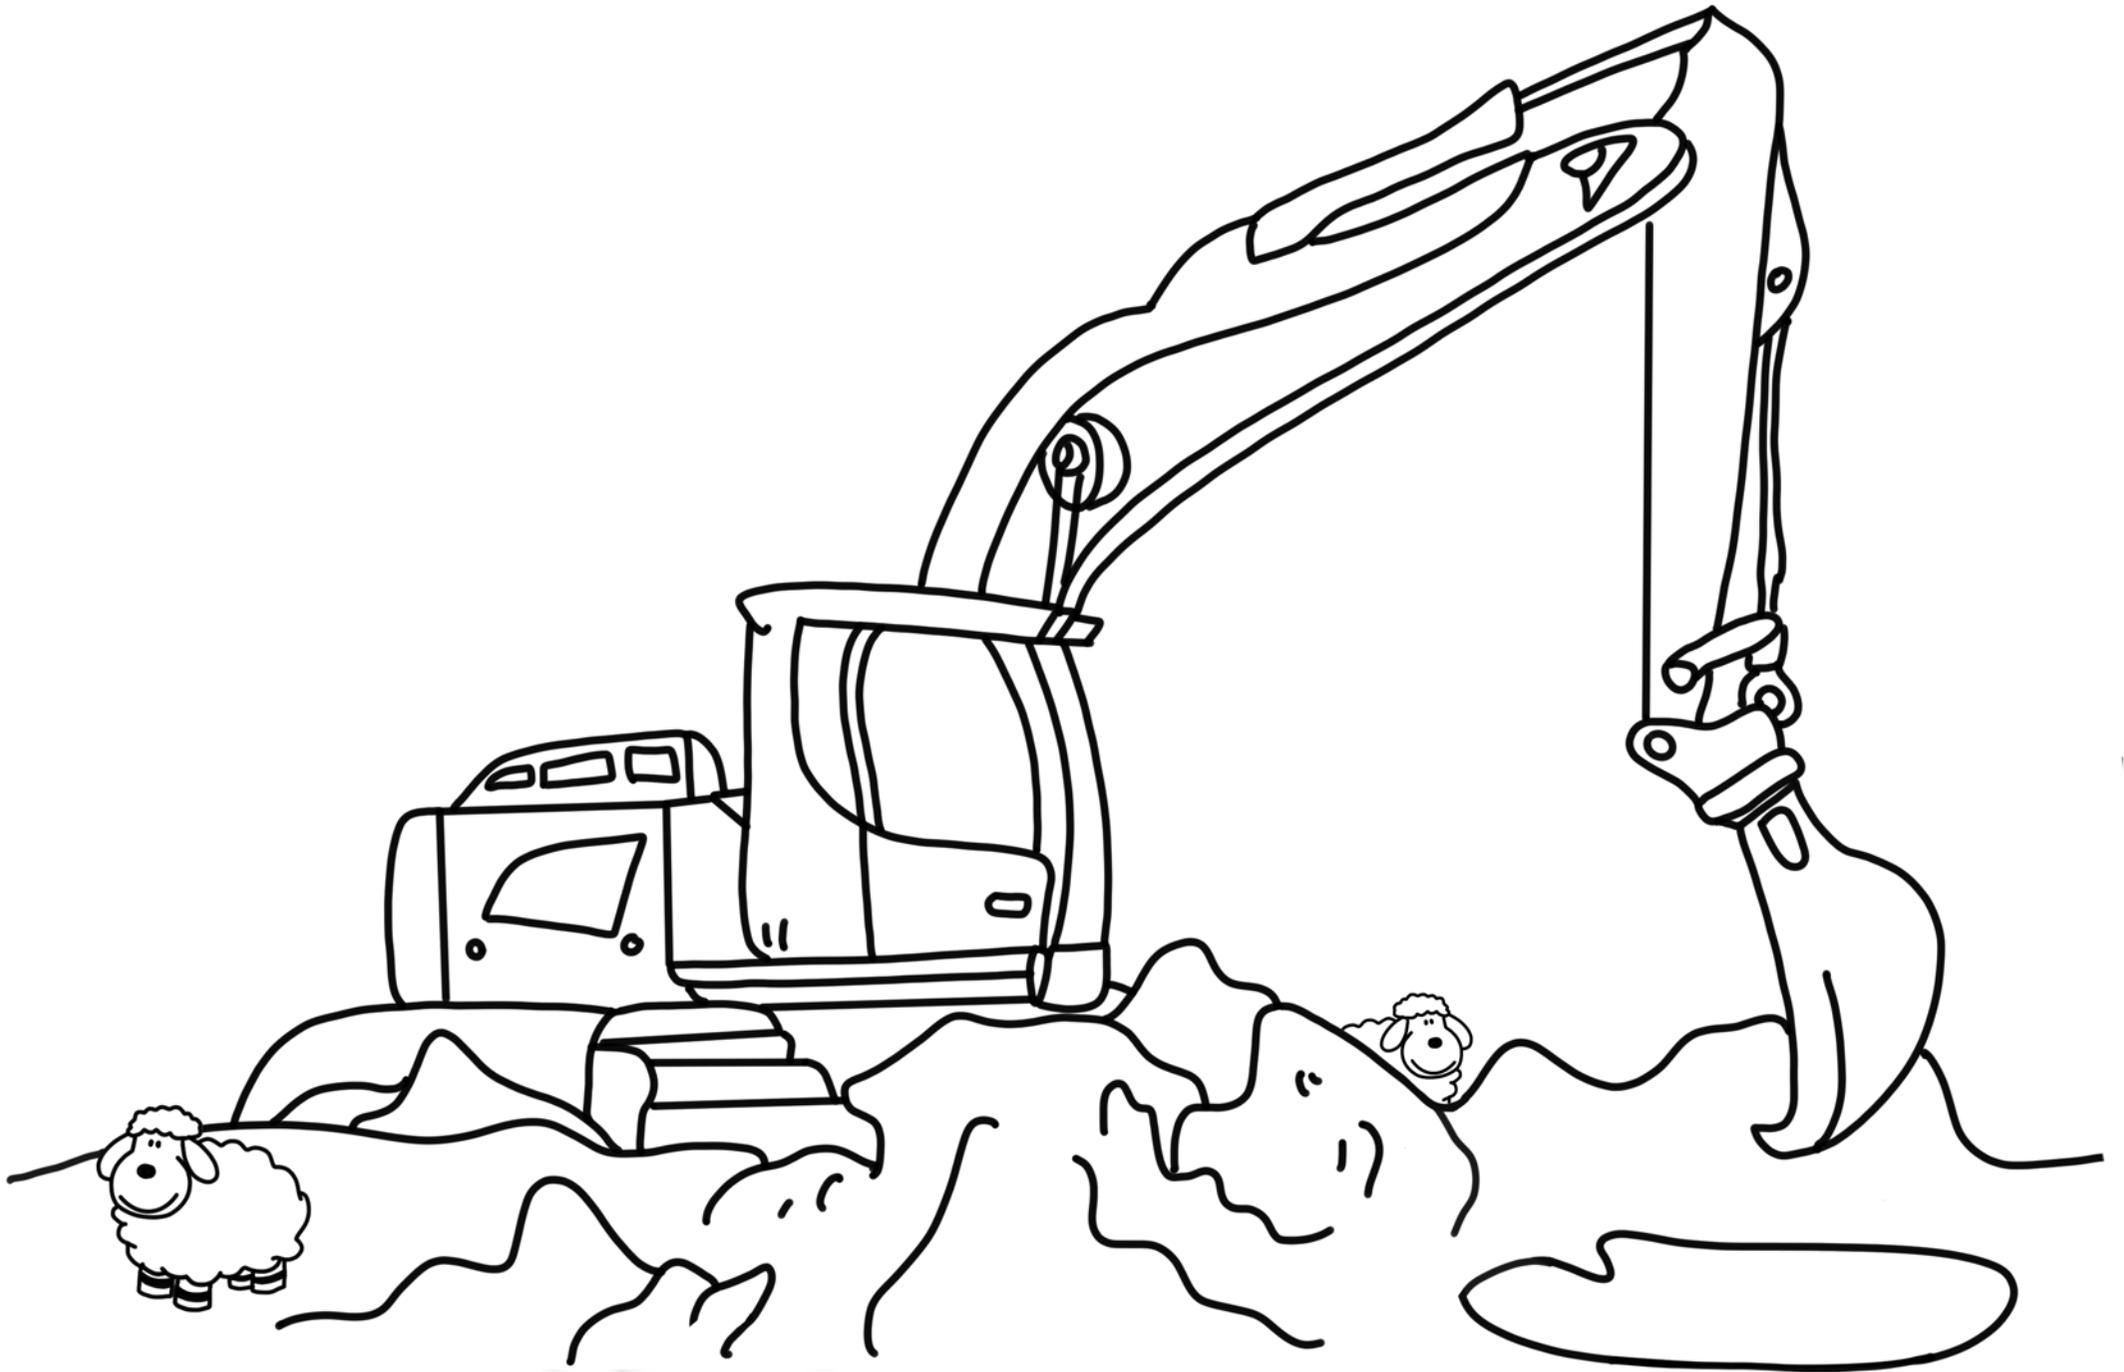

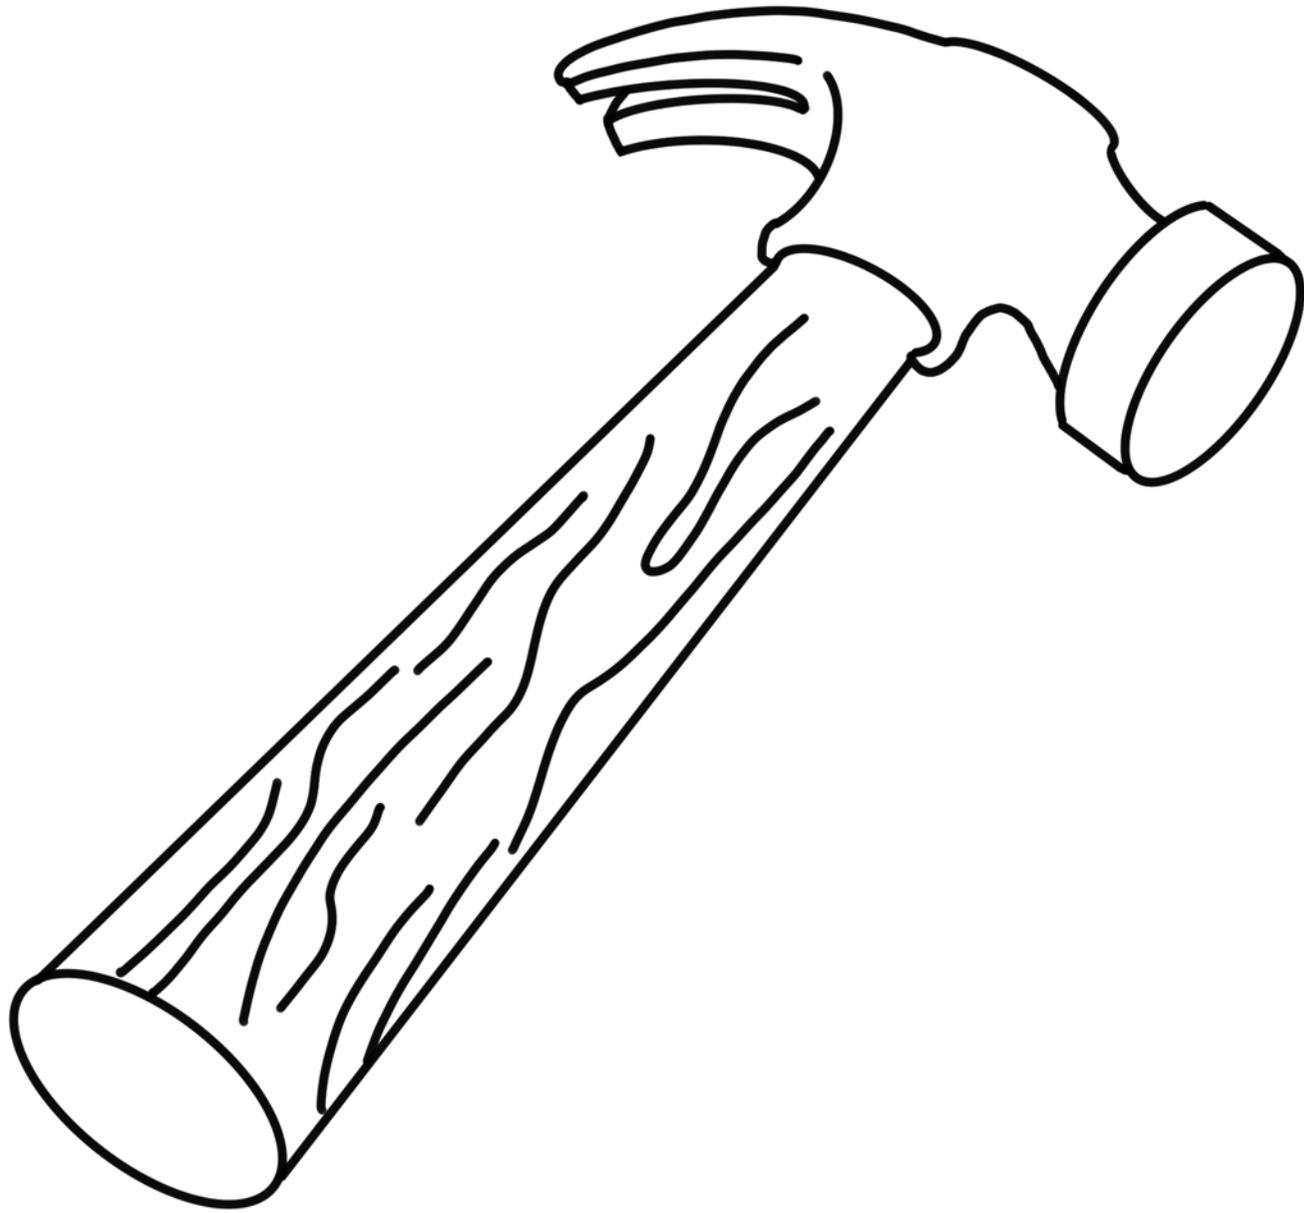

Der Bauarbeiter hat noch gar kein Gesicht. Male dich selbst hinein!

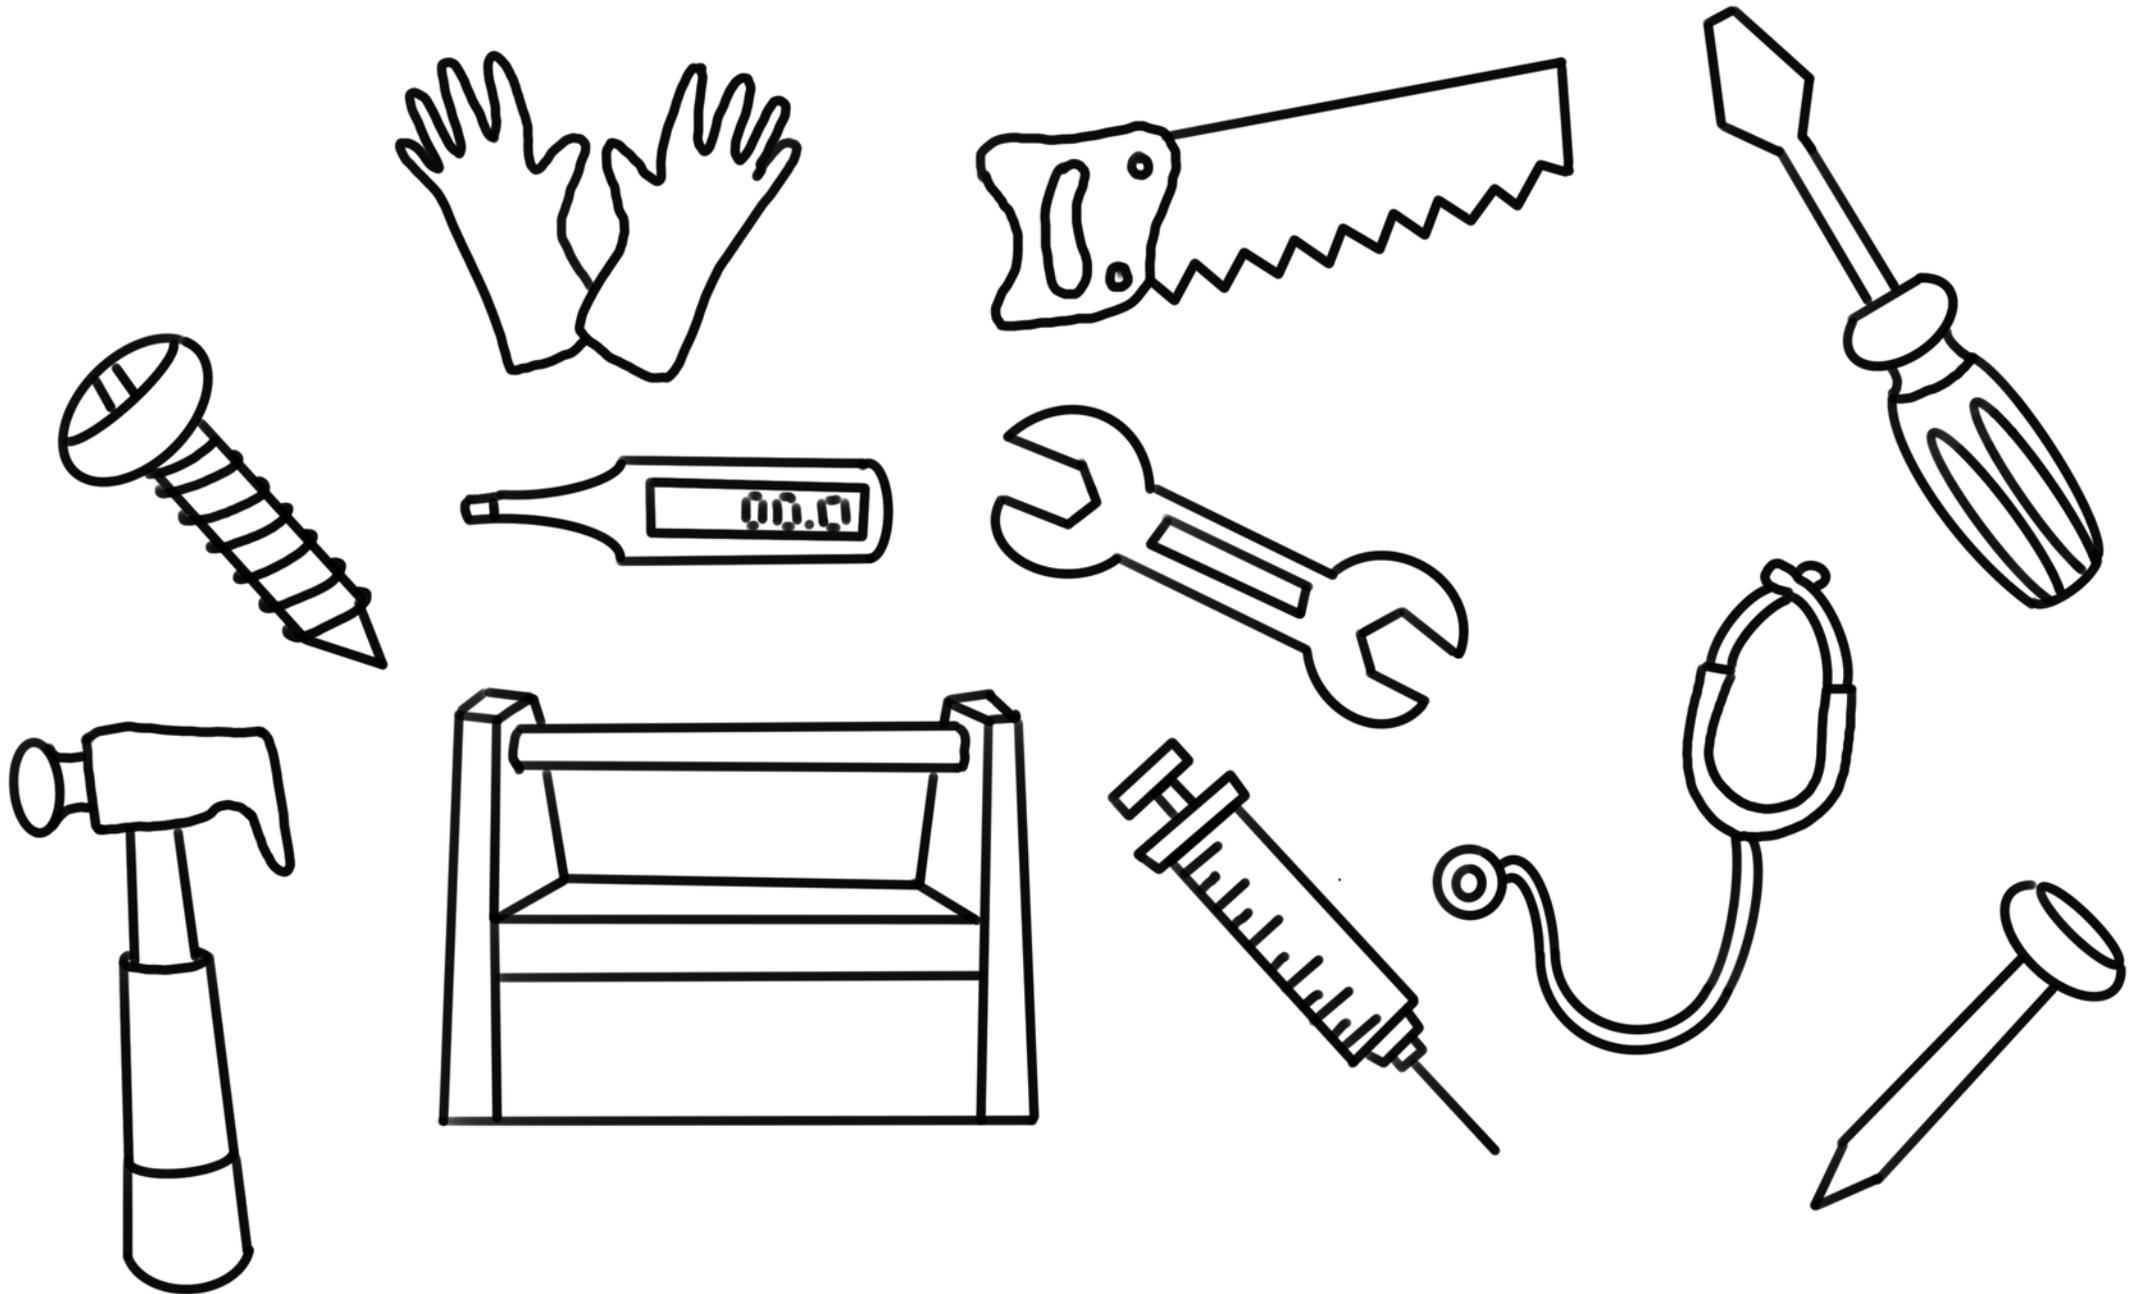

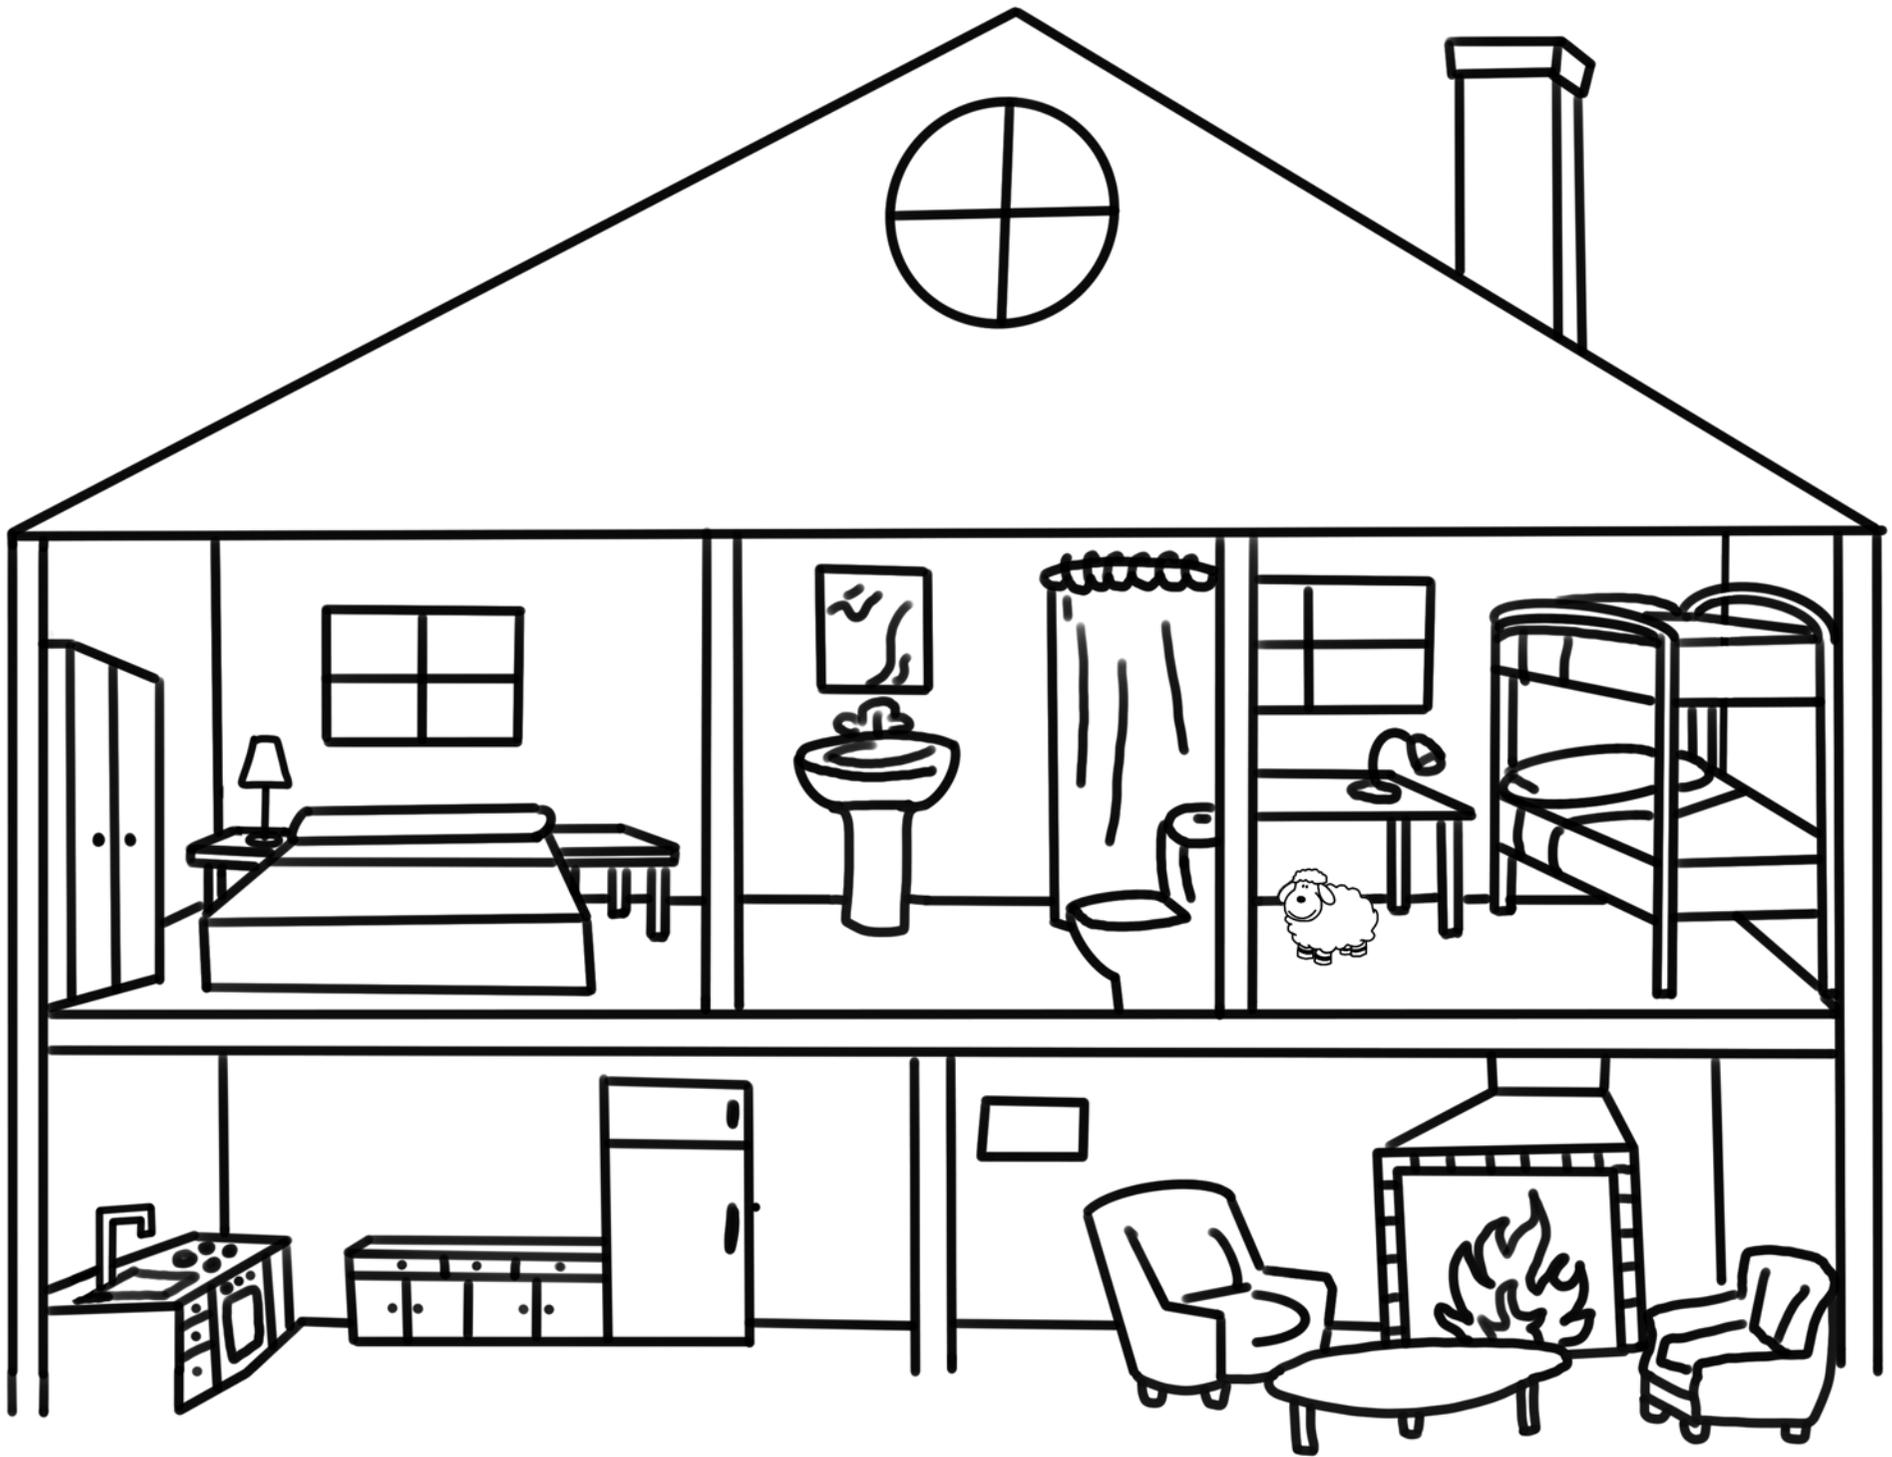

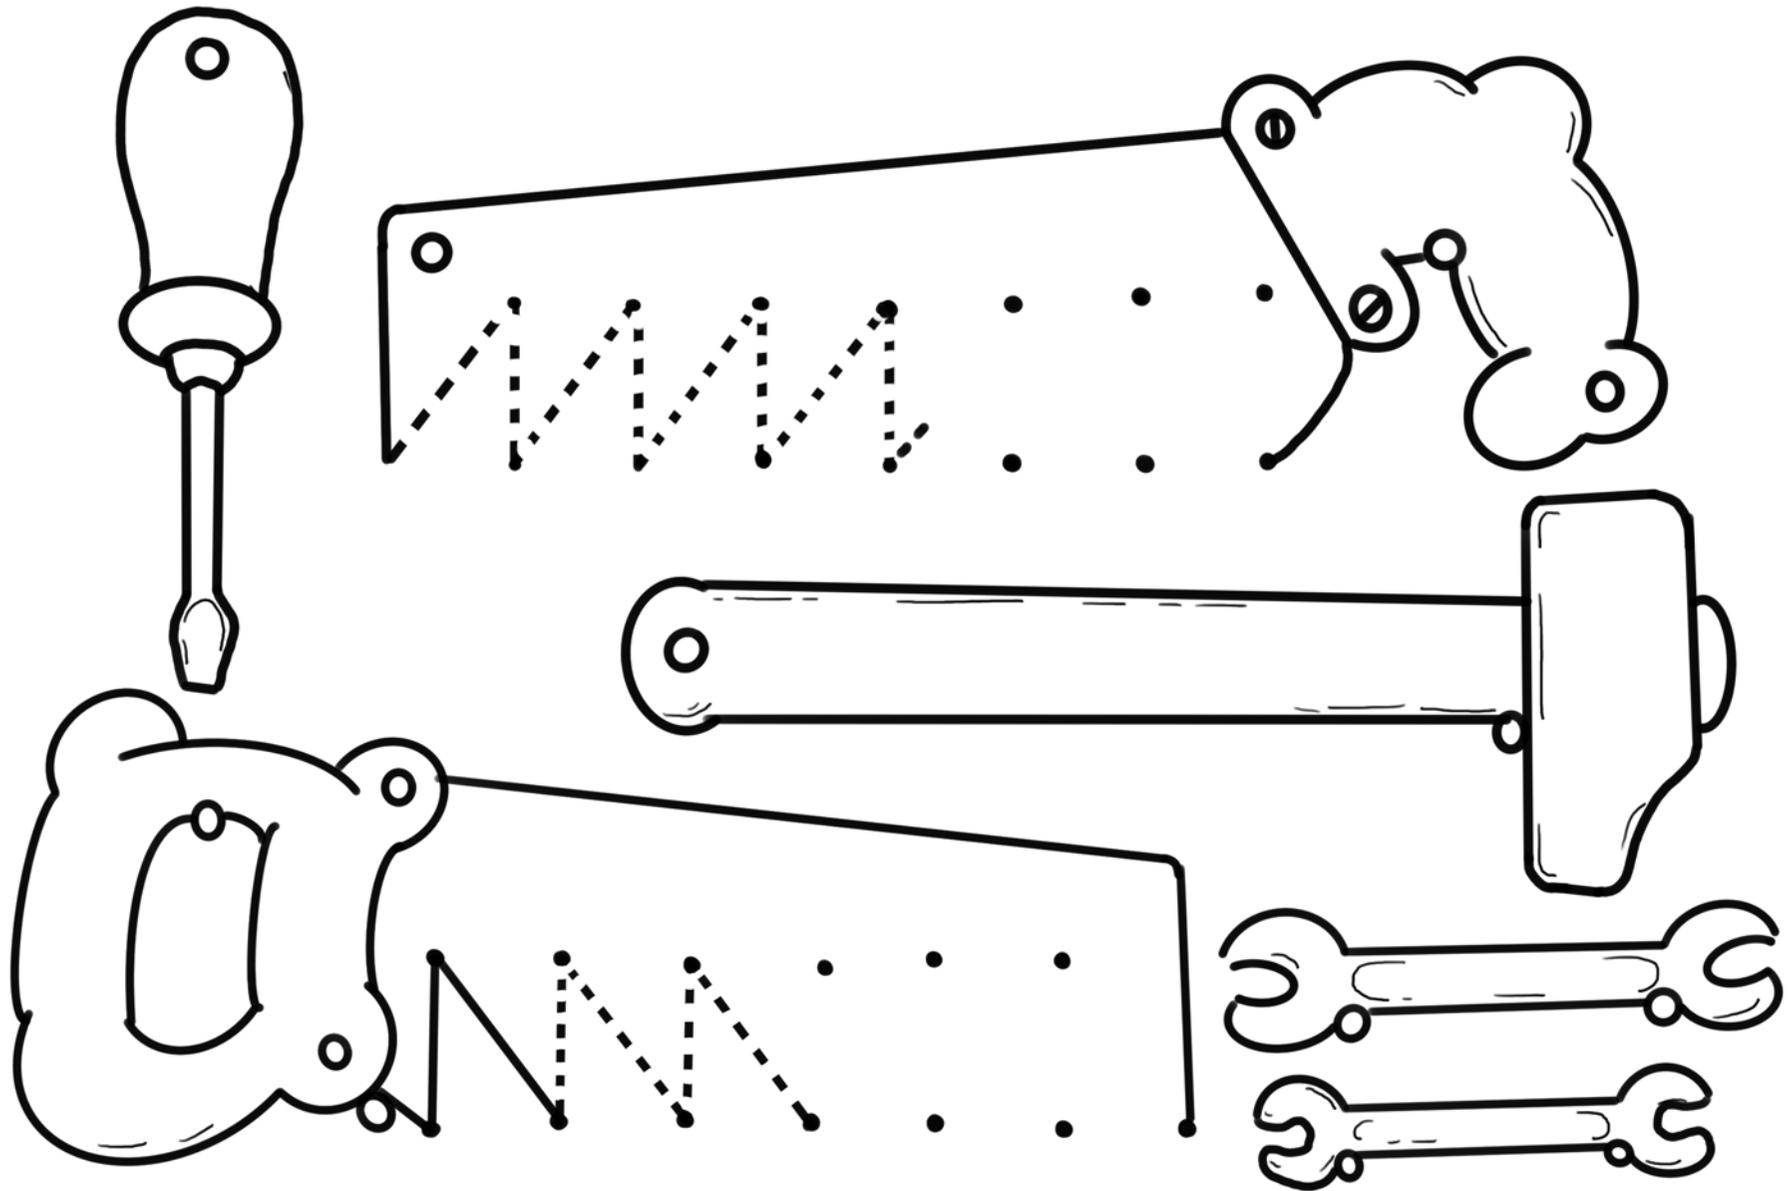

Male alle Gegenstände aus, die man auf der Baustelle braucht.

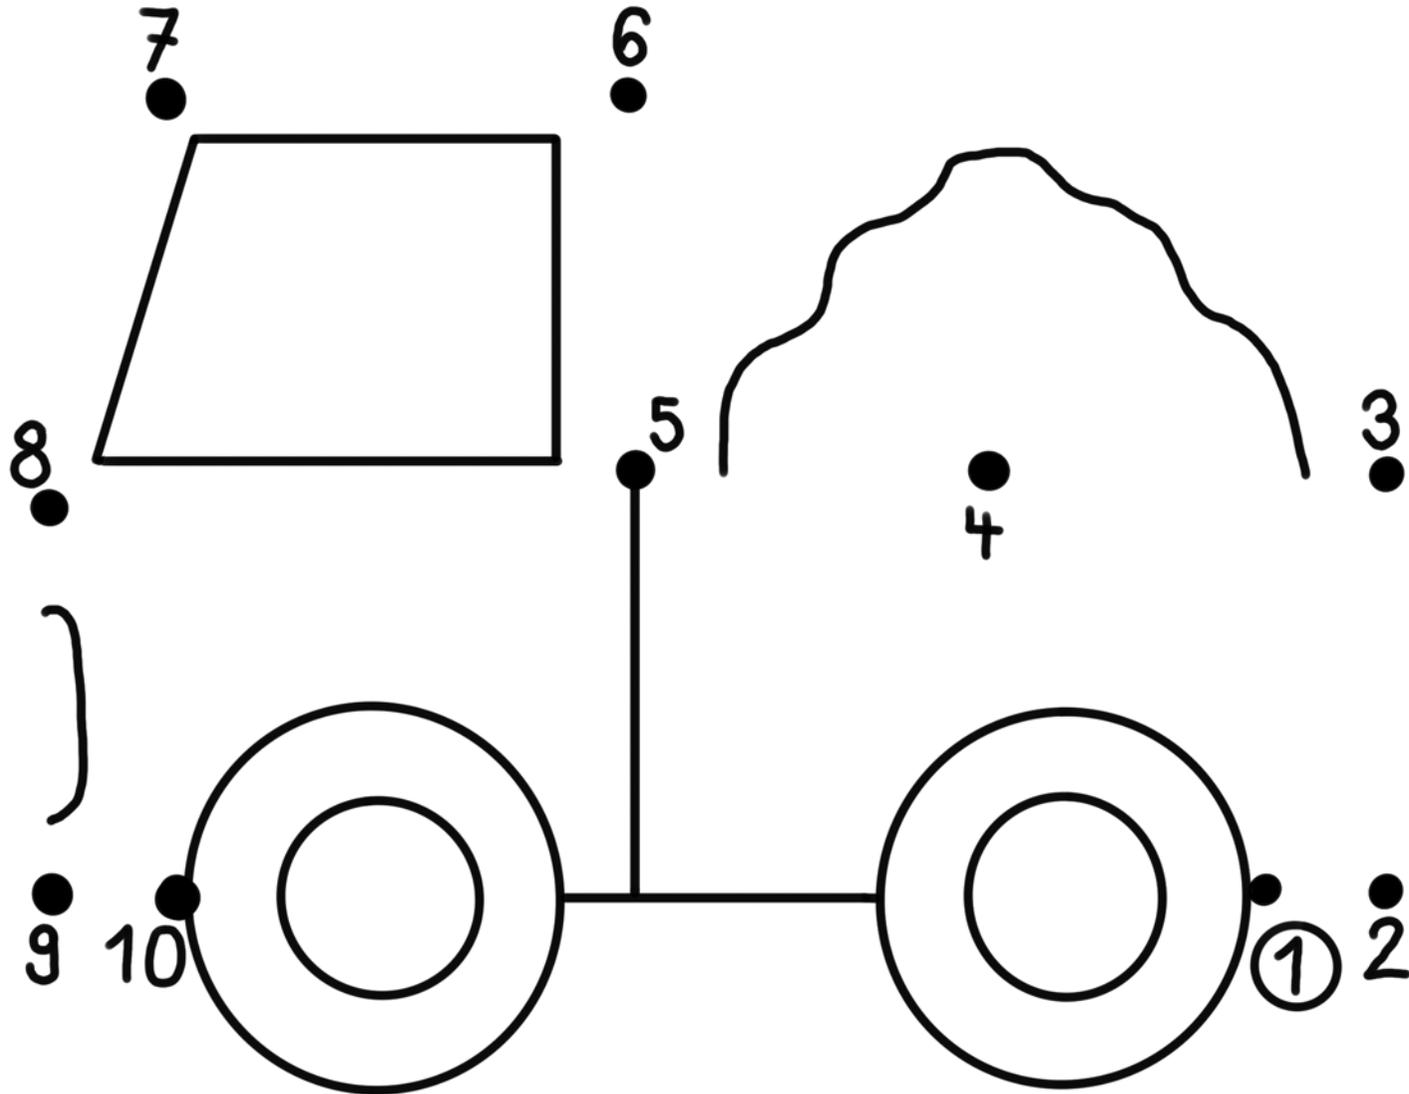

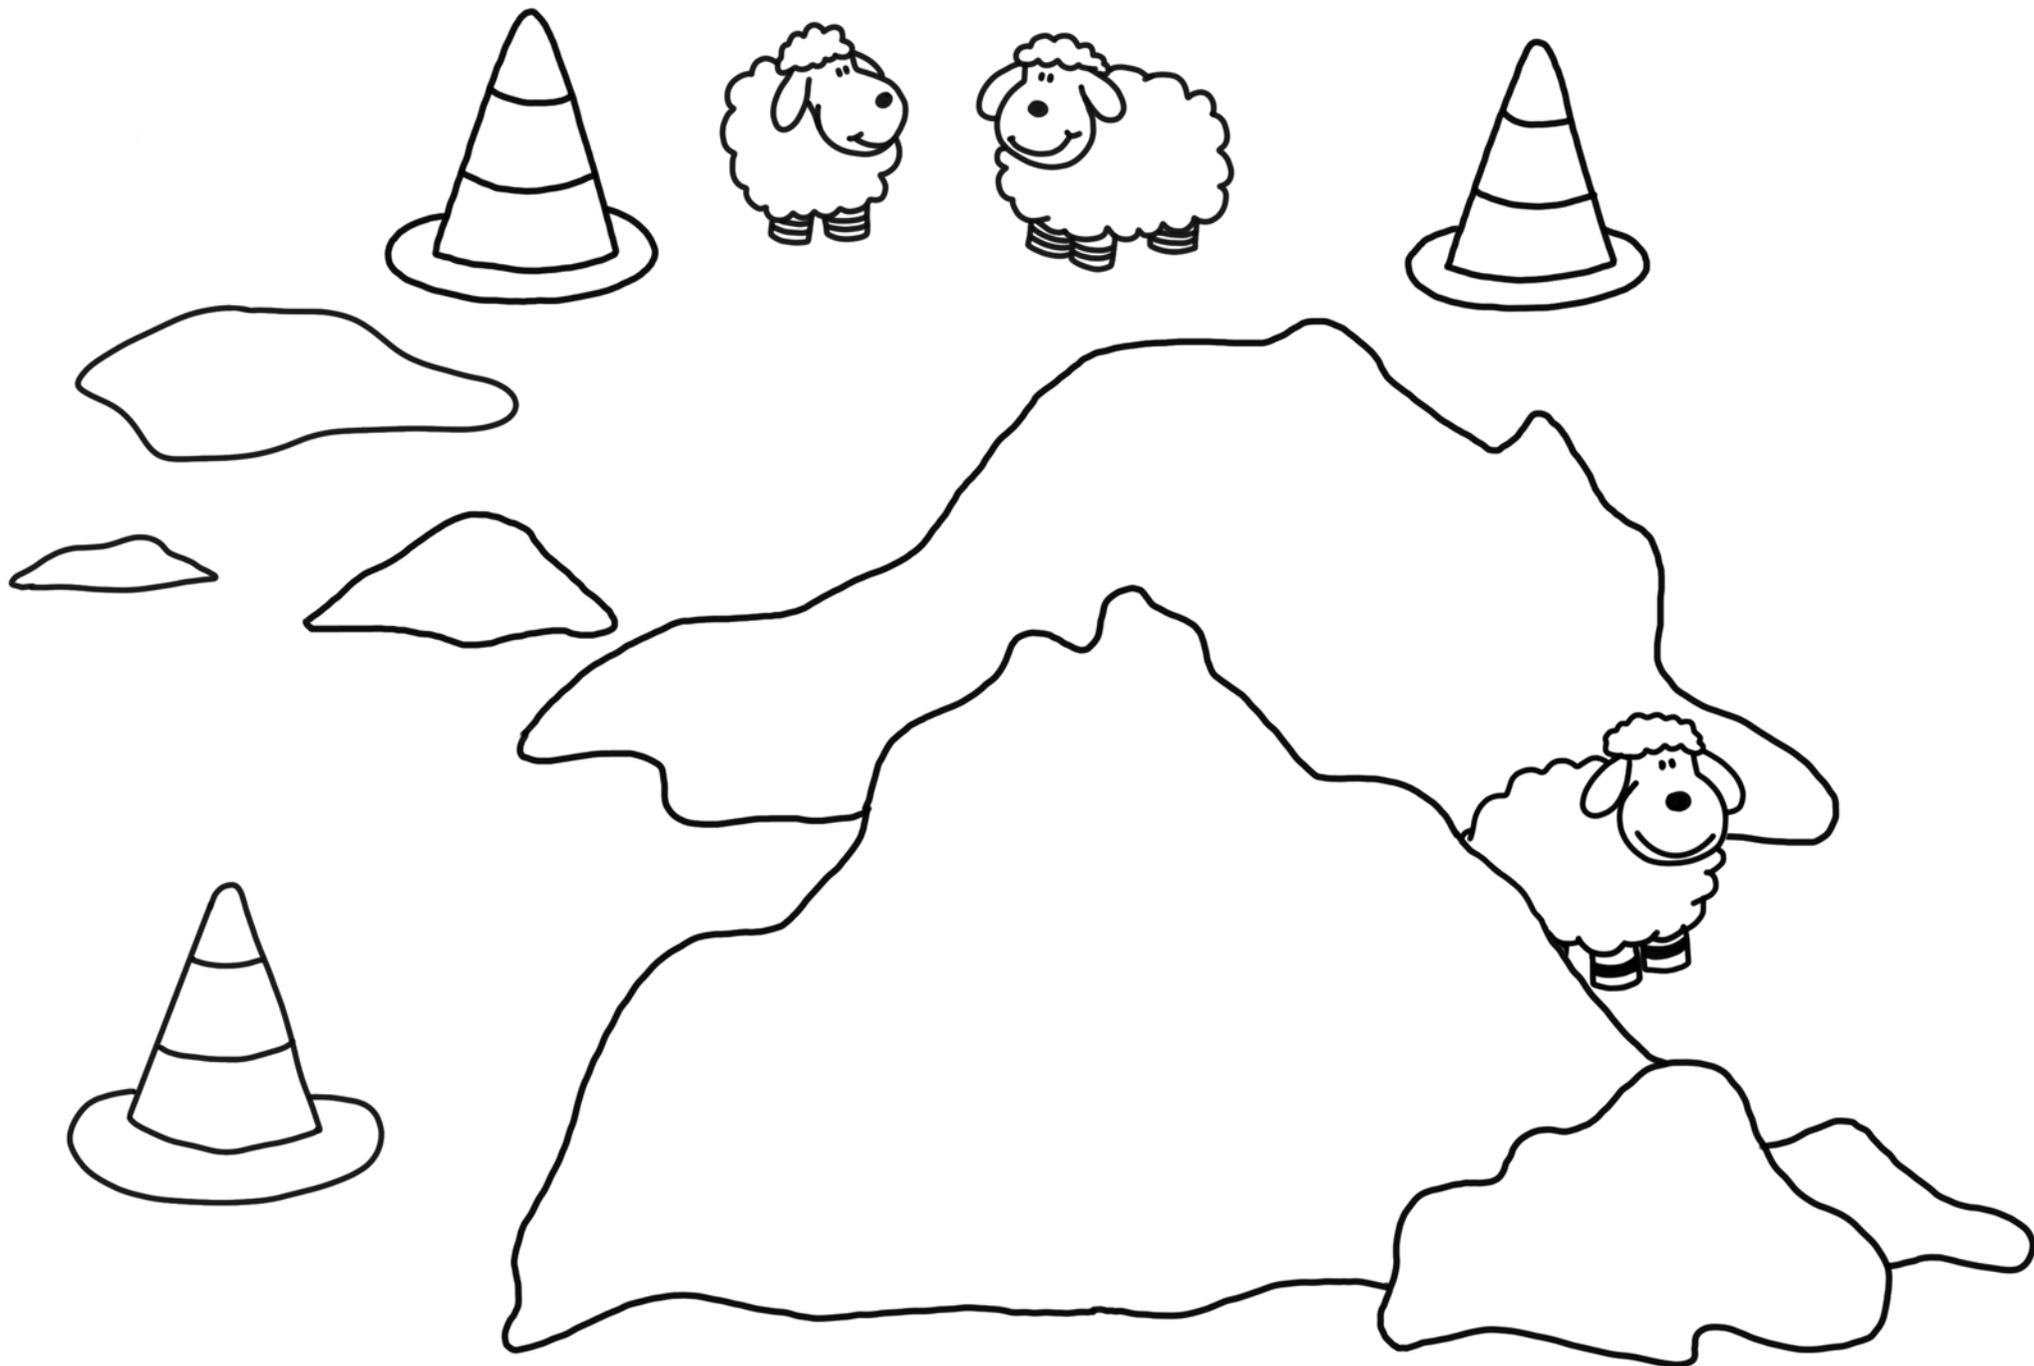

Verbinde die Punkte und zeichne die Sägen zu Ende.

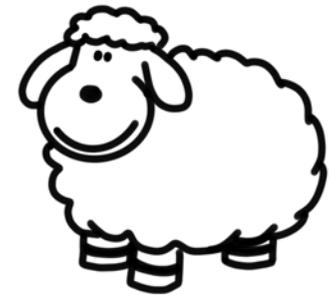

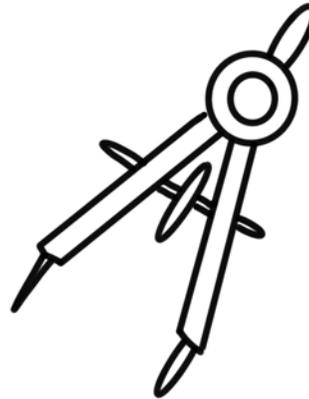

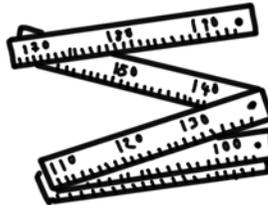

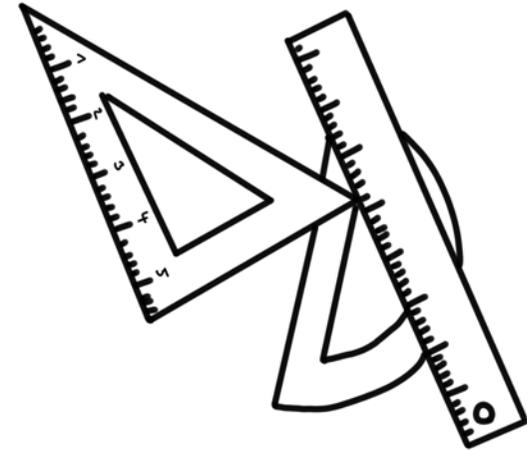

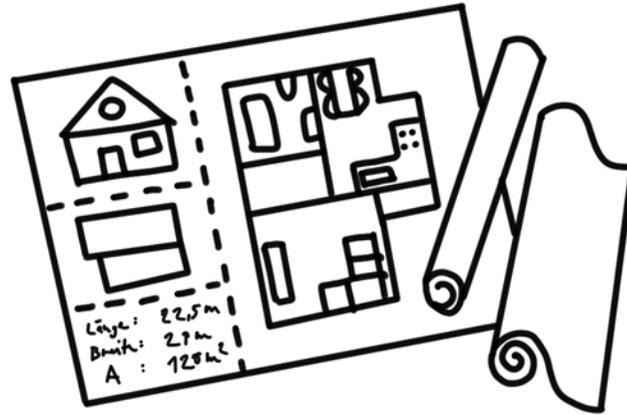

Verbinde die Zahlen und fange bei der Eins an.

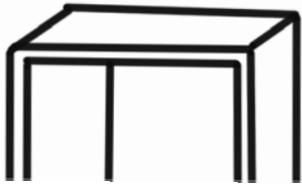

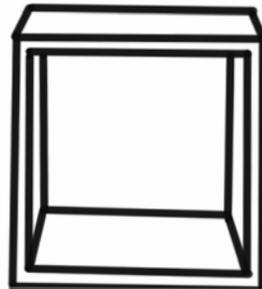

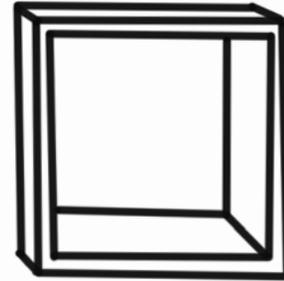

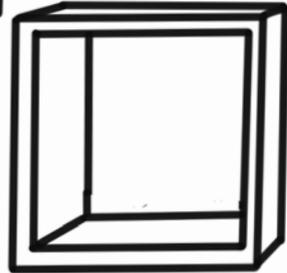

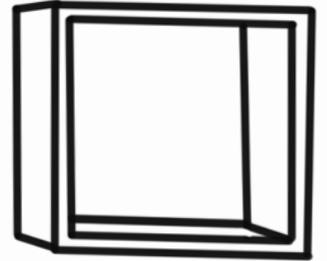

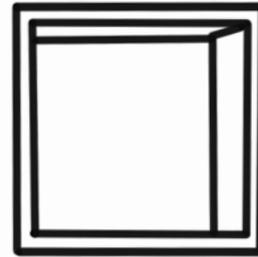

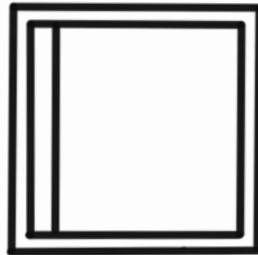

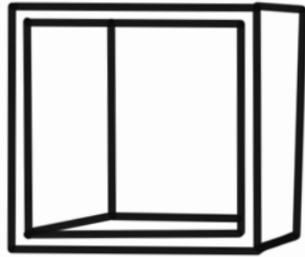

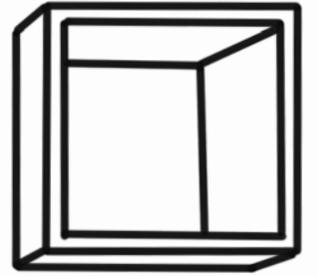

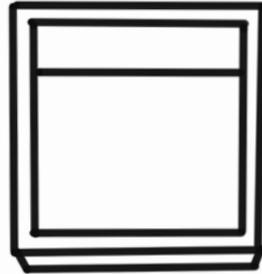

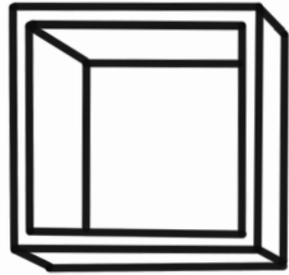

Was braucht ein Architekt? Streiche alle Gegenstände durch, die er nicht braucht.

Hier siehst du die Regalwand vom Architekturbüro beplant. Doch die Regale sind leer.  
Kannst du helfen, sie neu zu dekorieren?

Verbinde die Zahlen und fange bei der Eins an

Diese Baustelle ist verhext! Kreise sechs Dinge ein, die hier nicht stimmen.

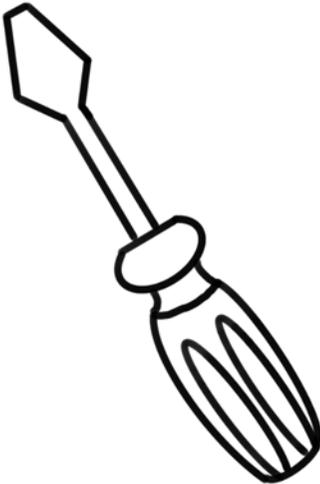

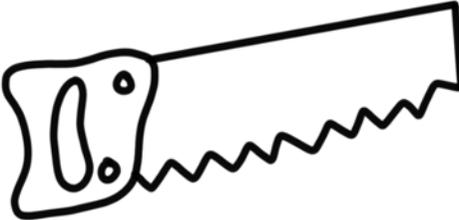

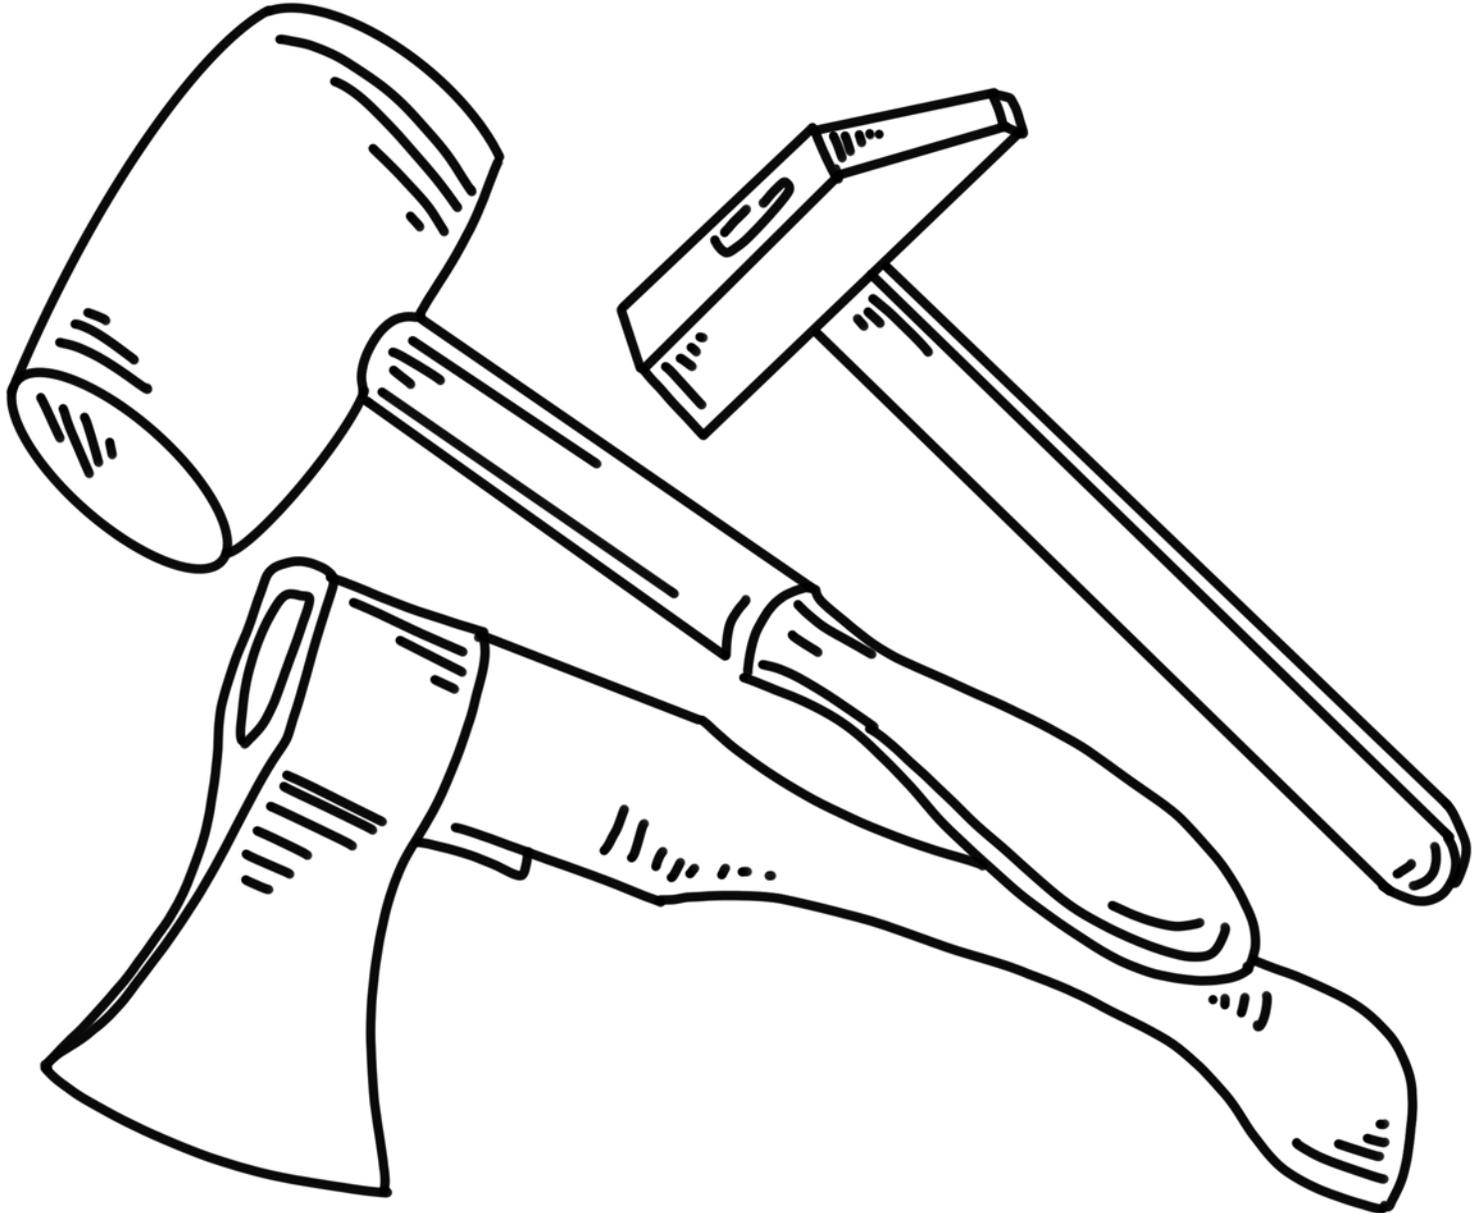

Baustellen-Memory! Finde alle Paare und male sie mit den gleichen Farben aus.

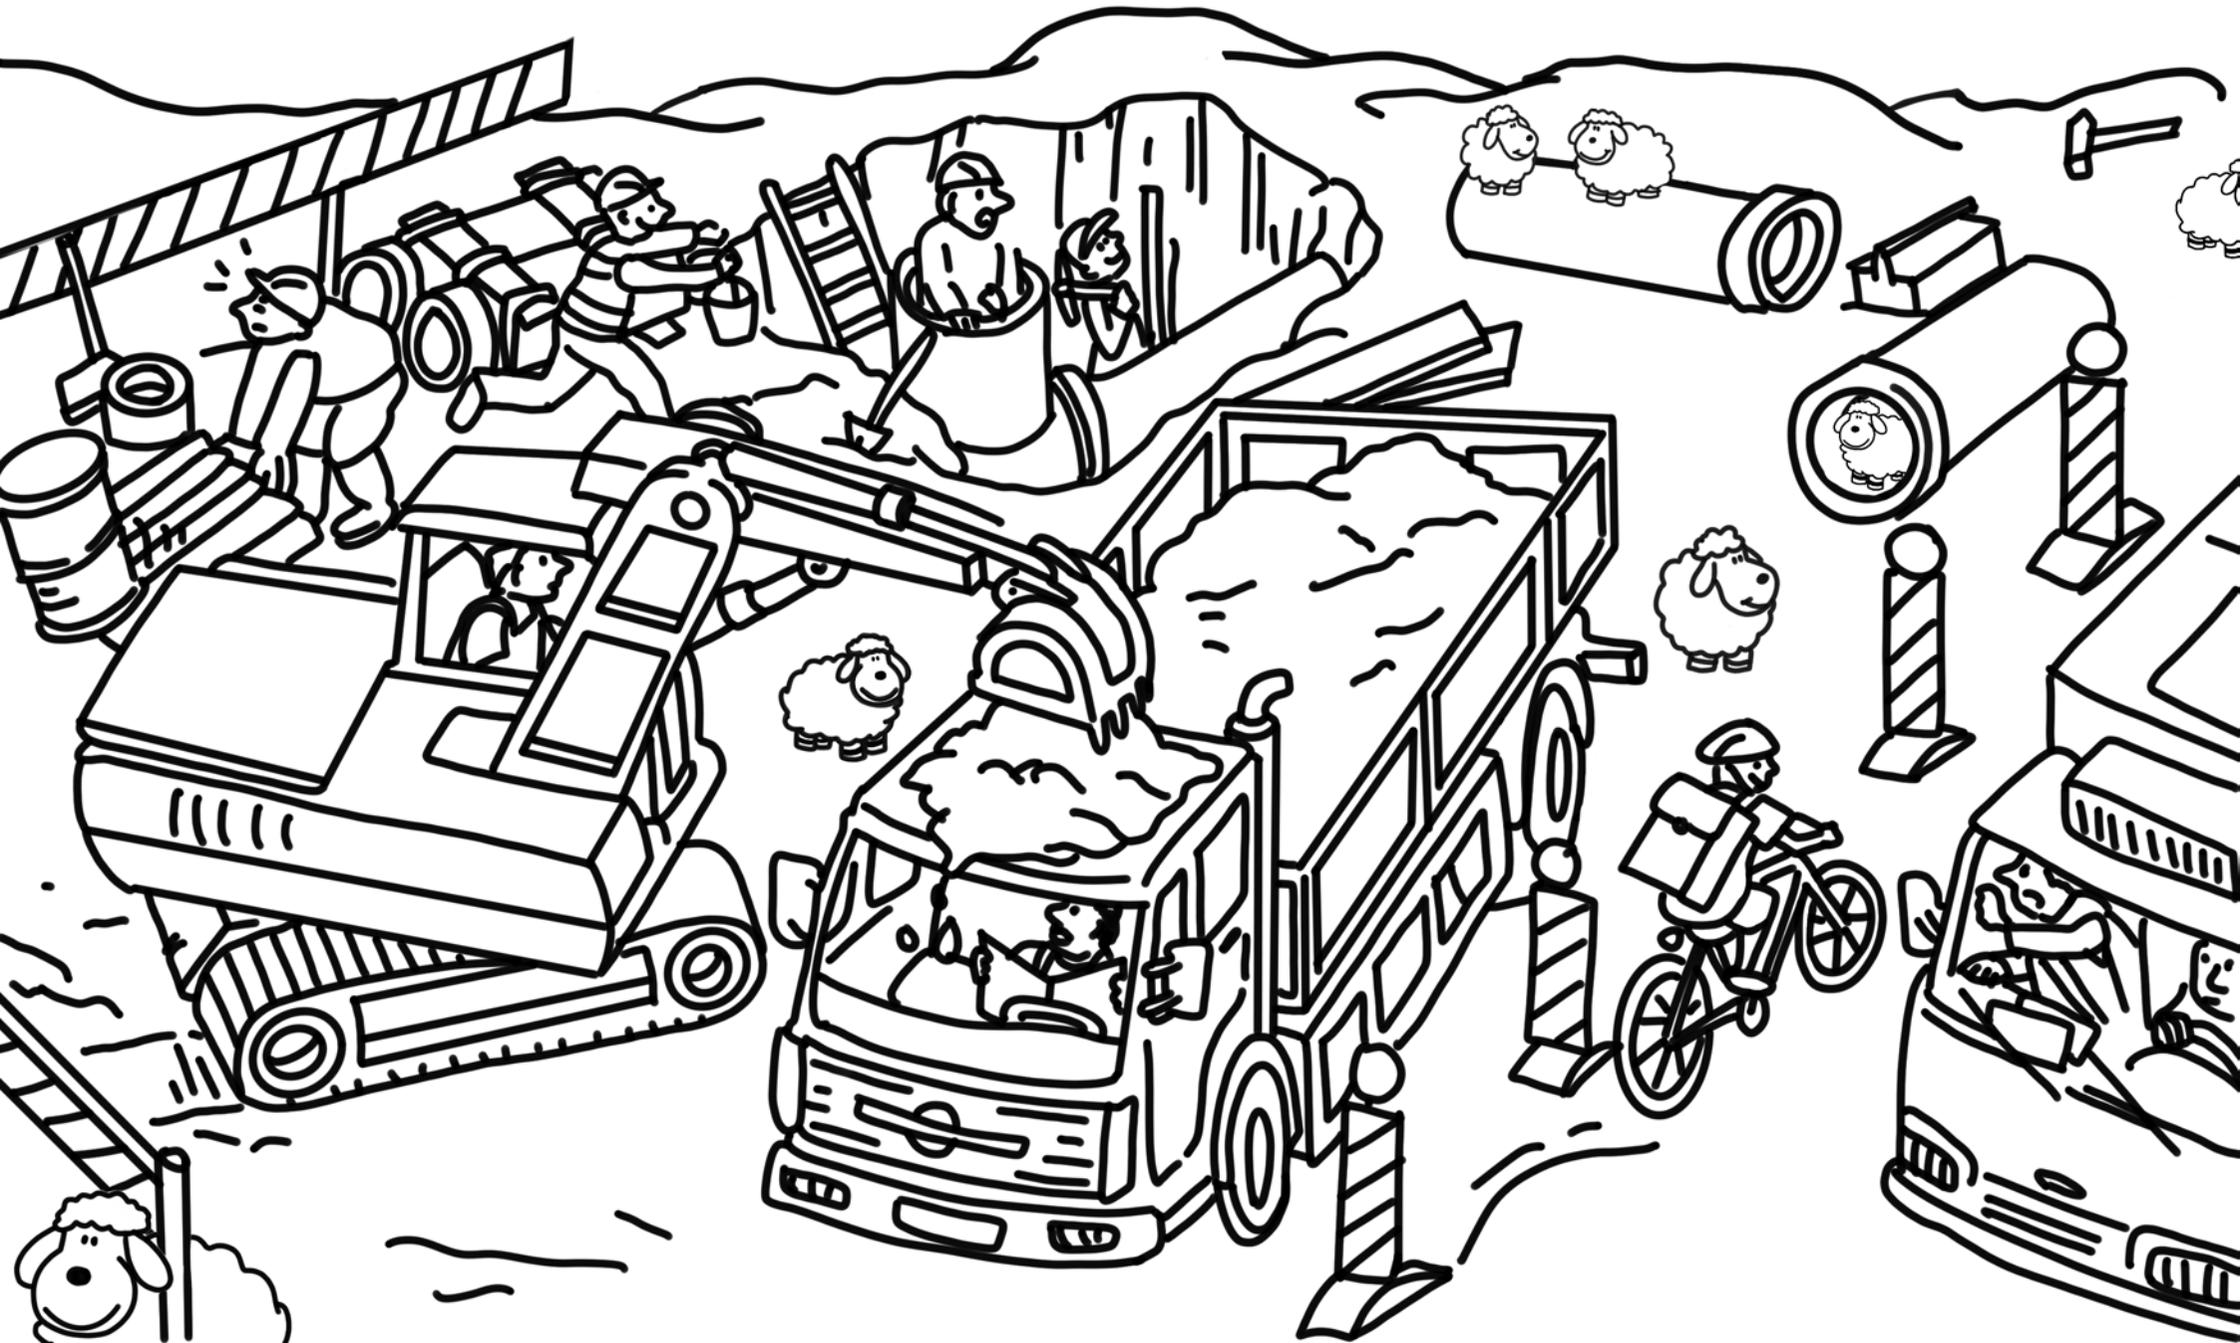

Finde das passende Schattenbild zu den Werkzeugen. Verbinde die Paare mit einer Linie.

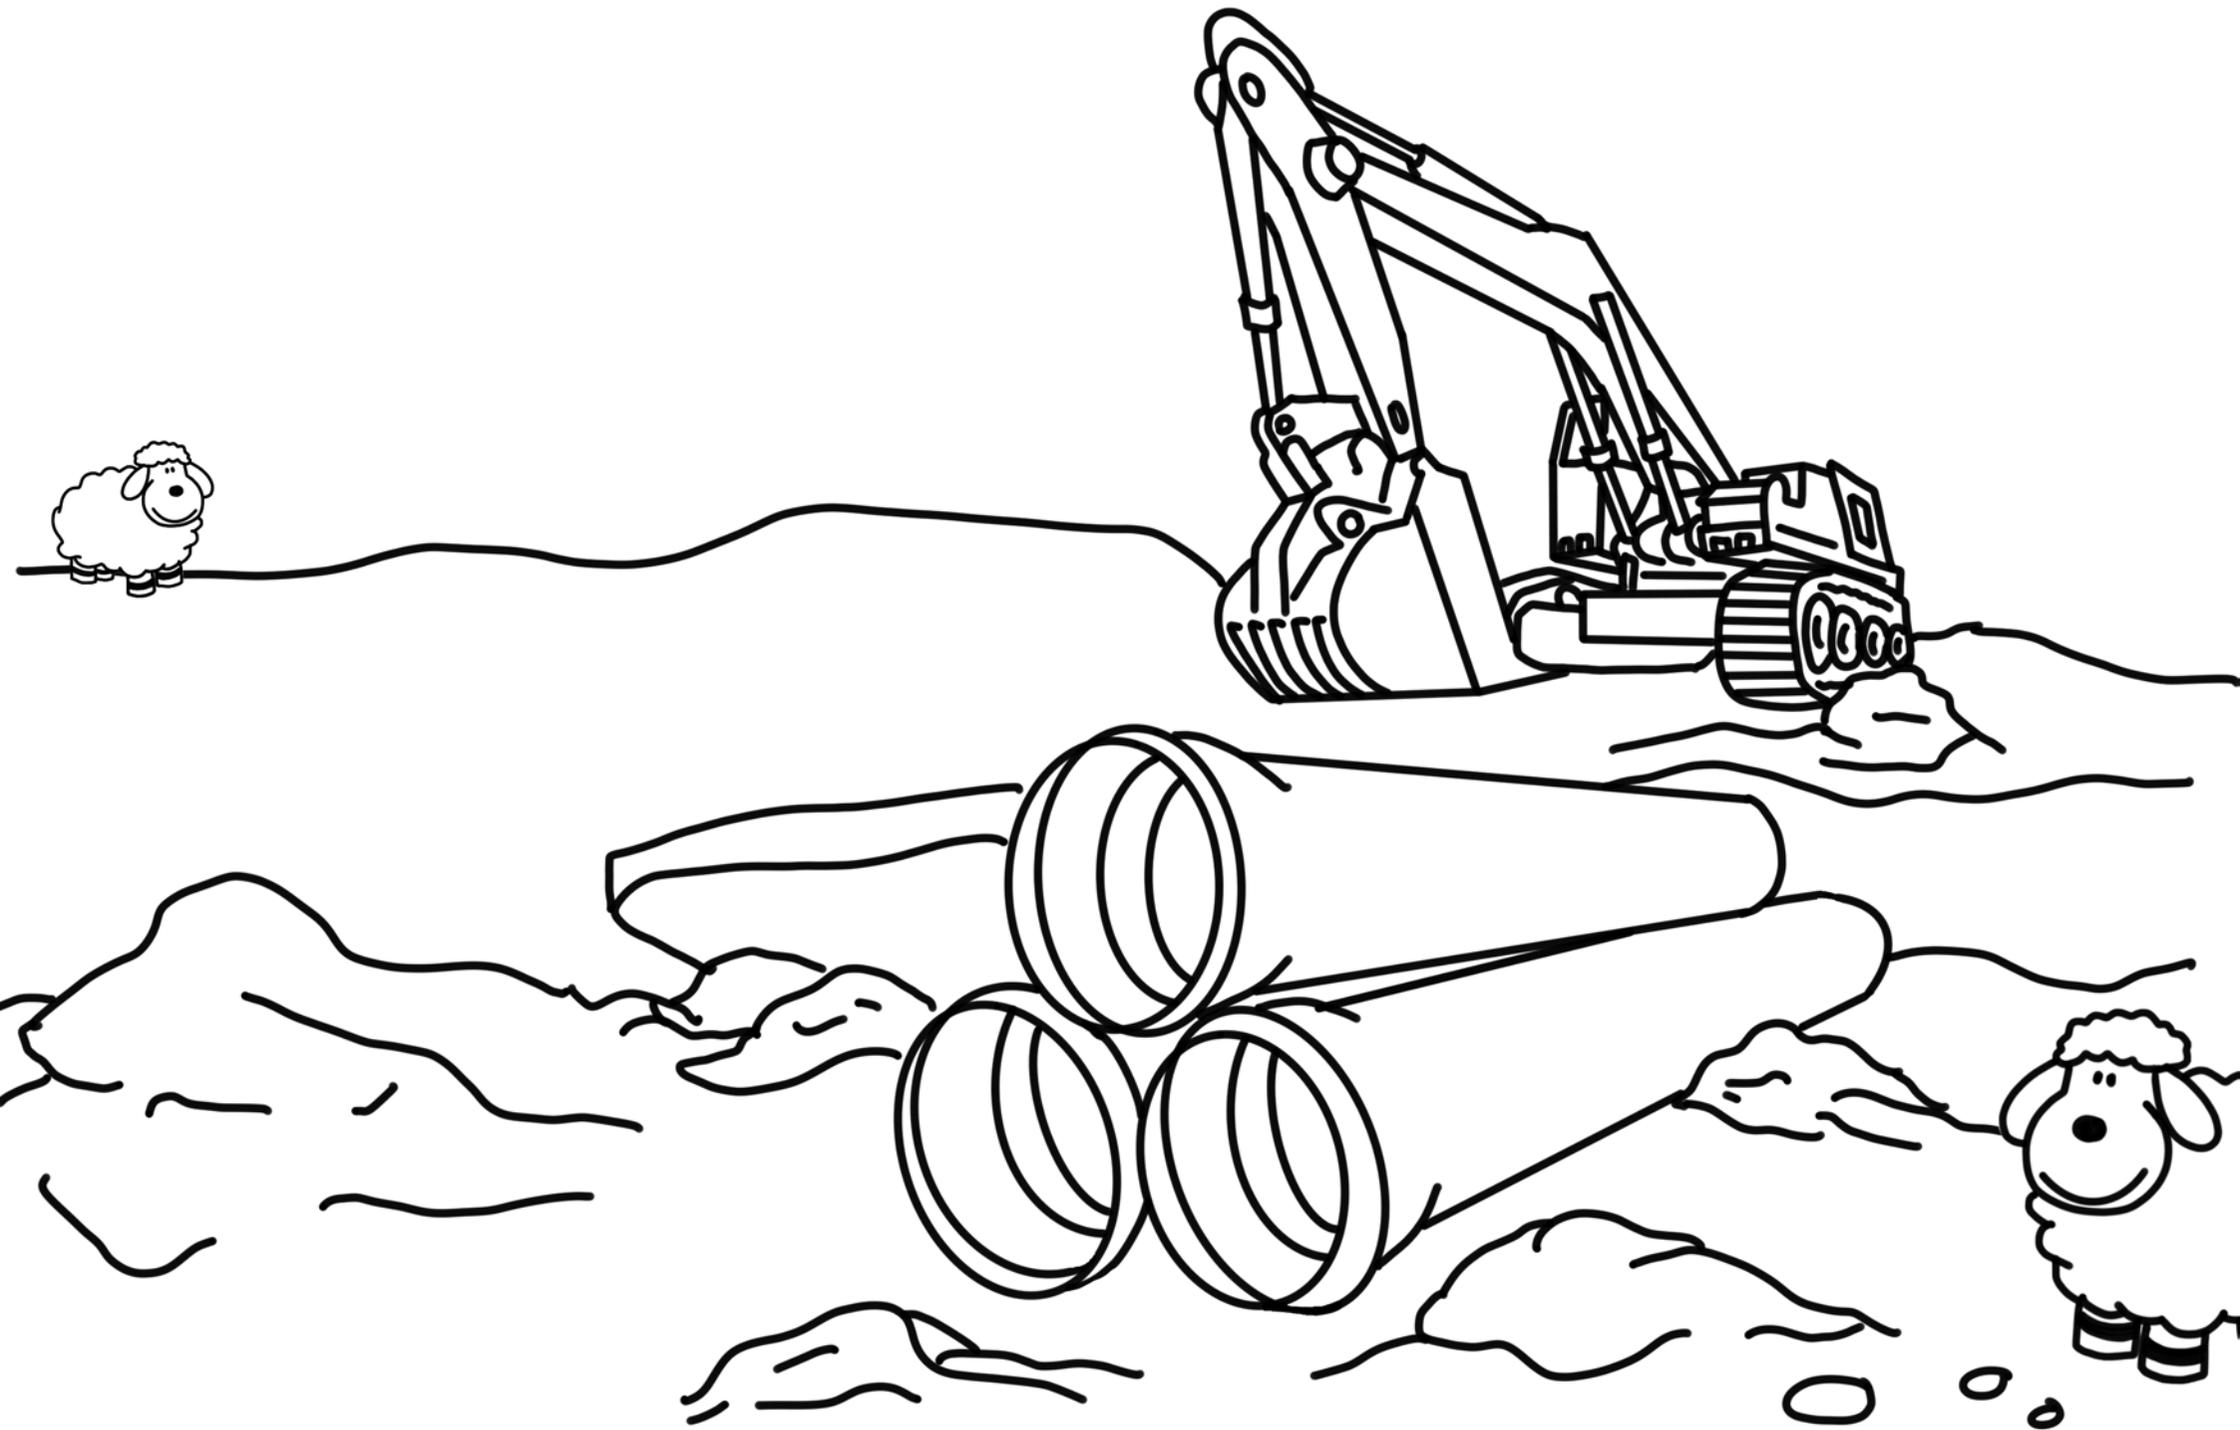

Huch! Was für ein Chaos! Wie viele Schafe kannst du finden?

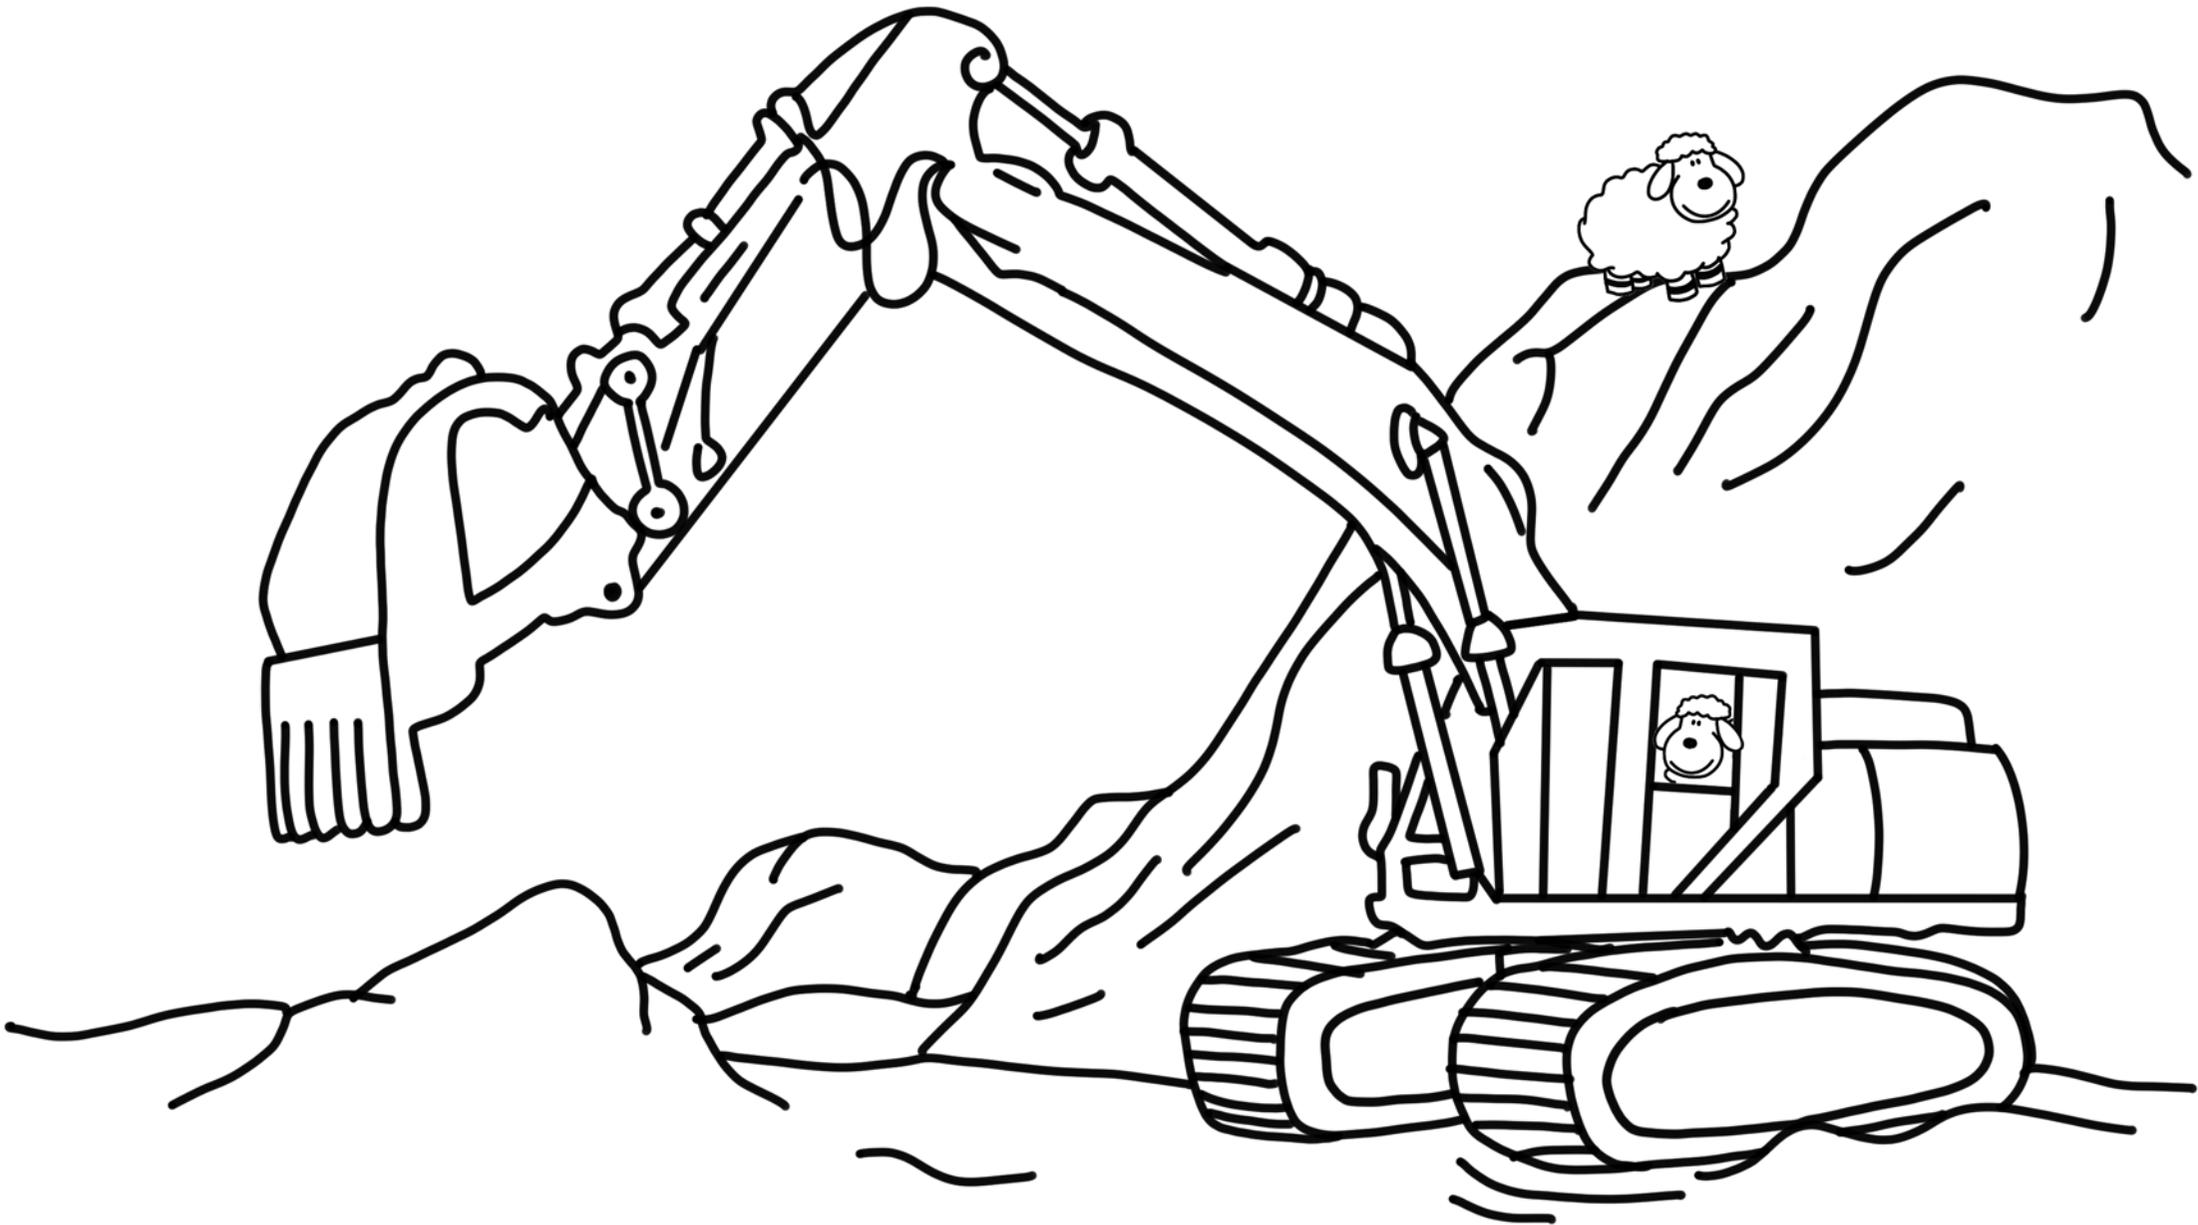

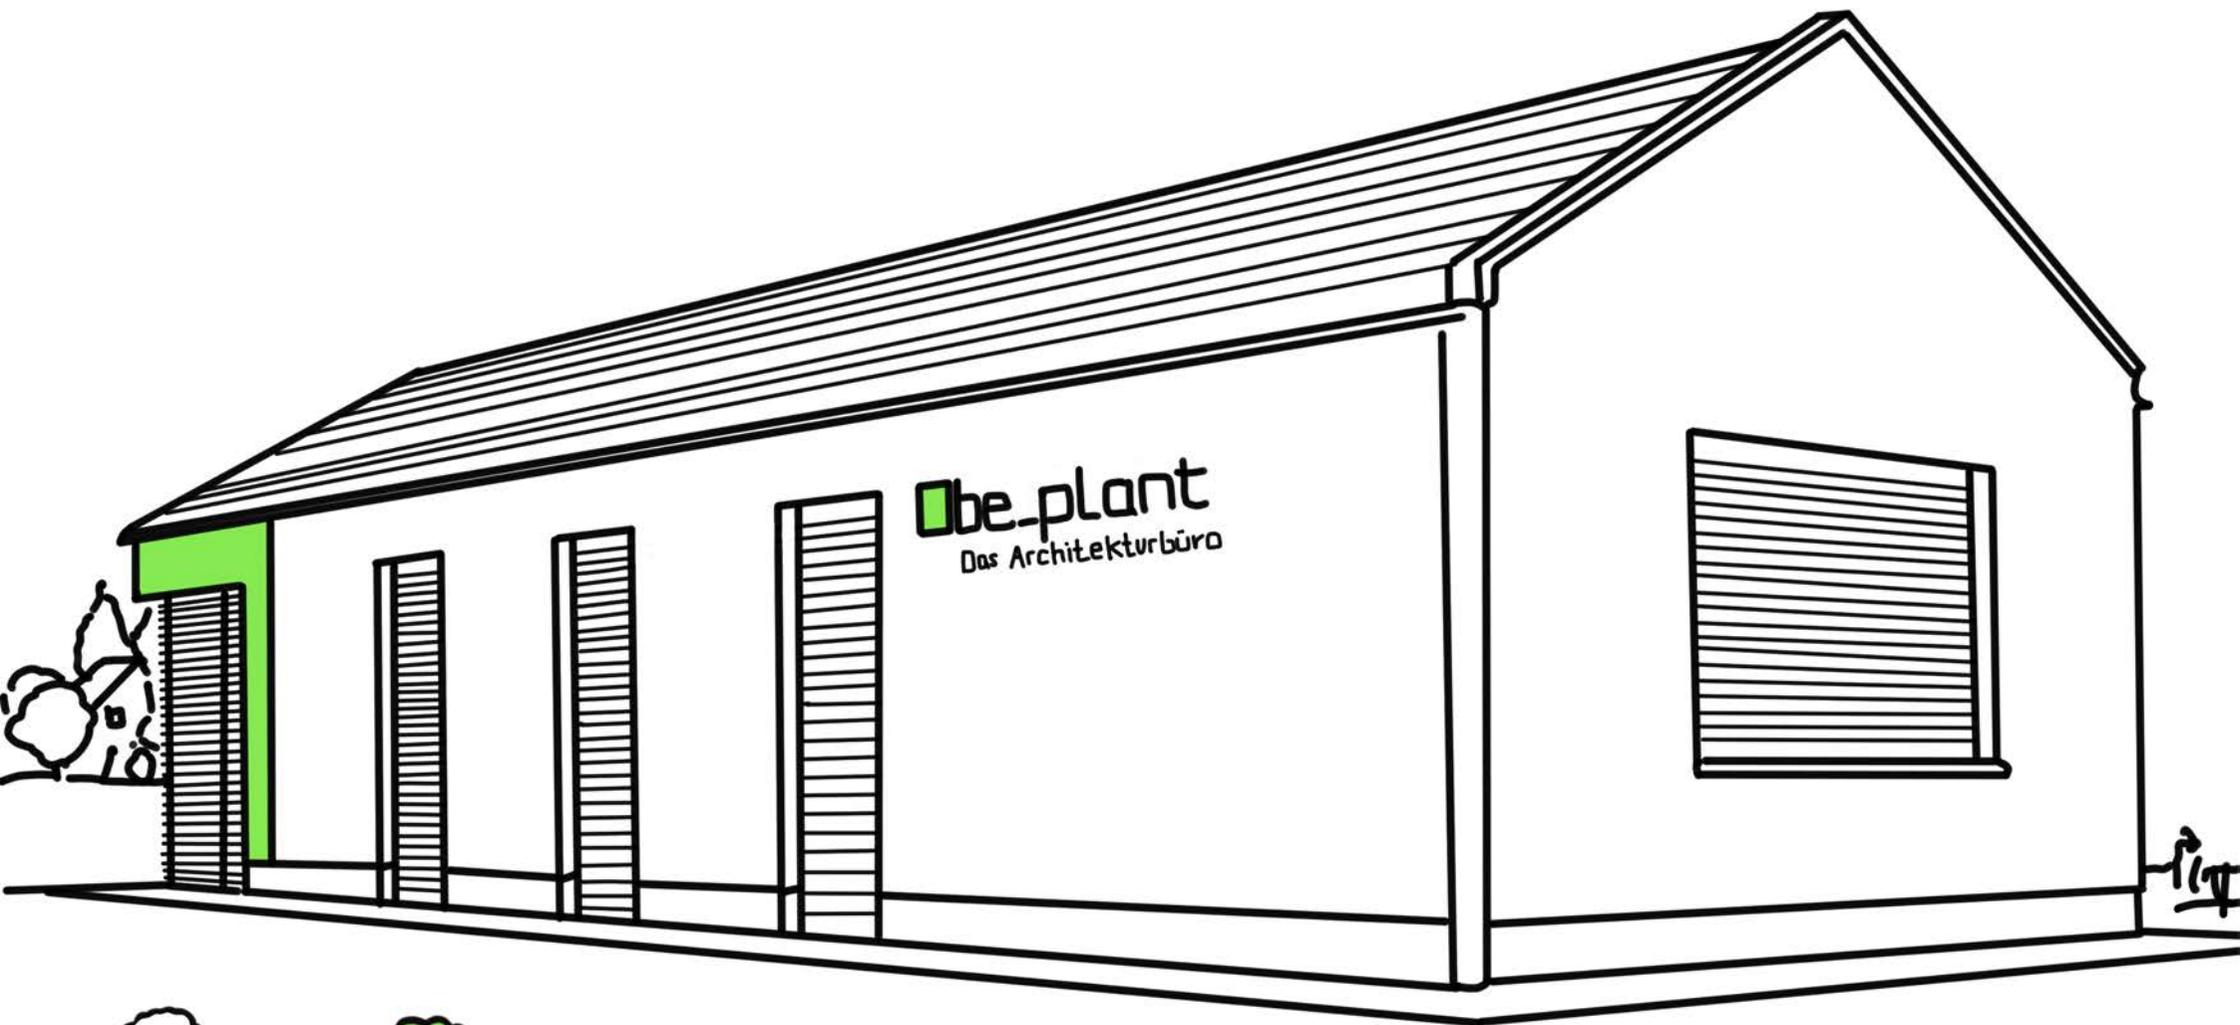

Was könnte der Architekt zeichnen?
